All,
I spent some time going through the 'deckchair' cost options sheet (with Stewart, and have also used his hidden notes) to collate some detailed notes for us all to refer to – see attached (GR notes FinancialsUpdate 081110).

The aim of the note is to:

- 1) help us align our understanding of the logic behind where the figures come from
- 2) flag those numbers which might require some more work

If you have any questions about anything on here, then please let me know.

Thank you
Regards,
Gregor
