Scott

In respect of the structures pricing reliability exercise that we agreed yesterday please complete the enclosed template and return it to me. This will enable me to be clear on your level of confidence in your structures price and enable me to quickly analyze your response

Regards

Geoff Gilbert - Project Commercial Director

Matthew,

There are some items in your list below that are not in line with our understanding of things, see bold italic text in your message below.

Subject Yesterday's meeting and agreed actions

Scott

To confirm what we are expecting from you at midday today:

1. Updated ER compliance matrix for all BBS

agreed

2. Revised price for Siemens scope

This is not in line with our discussion but we will confirm the price later today, but not by midday.

3. Roads price for 1D

I said at the meeting that I would discuss this with my QS and Estimator and advise. We will provide this price, with assumptions, on Friday 14th.

4. Structures pricing – reliability analysis e.g will not to exceed/ confidence levels

CEC00547761_0002

I understood the action on the structures was to provide a status matrix comparing the August bid design to the PB information. We can do a reliability analysis, not by midday. We will target 1800 hrs.

5. Reliable programme to complete remaining prices (this to be supplied by 1800hrs)

agreed

6. Outstanding info needed from tie

agreed (for main Civil scope), not by midday. We will target 1800 hrs

7. VE list completed

agreed not by midday. We will target 1800 hrs

In addition, we need to discuss your response to the letter handed to Richard sent last night regarding the visit to Germany.

We will respond under seperate cover

Kind regards

Matthew
