Steve,

Thanks for the opportunity of amending and commenting upon the first draft. I thought I would let you see my contribution before it goes out to Dave Anderson.

My colleague Ron Handley has put in some work on the first stage transfer re tie to TEL. I will also have a look at that to see if this draft should and could reflect any of his work.

Kind regards,

Colin MacKenzie

Colin

I've had an initial trawl through David Anderson's first draft Trams Governance Report and it feels more than a little light and not very protective of the Council to me.

I've added some Track Changes suggestions and would be grateful if you would compare these notes to your own, remove any that are misguided/wrong/insensible and thereafter feed both sets of comments to Dave Anderson.

I trust this a reasonable approach.

Happy to discuss

Kind regards

Steve
