Richard

I am pleased with the progress you have made with Dennis on this key area and I believe you and Dennis have now reached agreement in principle, subject to our respective internal review processes.

I have raised this with my Board and we will be pursuing a rapid formal internal approval.

Pending that, and your own processes, I want us to operate in line with the principles agreed and ask that you ensure that happens from BSC's perspective. I will address that with my team.

In addition, it is critical that the weekly meetings and escalation of any key issues happens with the full involvement and support of your management team and my own.

Can you please ensure the right framework of support and resource is provided to Colin and his team to enable that to happen and to enable Colin to follow through with Frank at the Weekly KPI review.

Thank you.

Steven

Steven,
Attached is a copy email sent to Richard and Grahame this morning.
Regards

Dennis

Richard/Grahame,

Following our discussion last night I append a draft for further discussion/agreement. I think that we can make this work however it is a work in progress as I have yet to get Steven and the tie board approval and of course you will need to get consortium approval. I look forward to further comments.

Regards
Dennis
