Steven,

These minutes make no mention of the current and more importantly future resource shortages being experienced by AMIS which were discussed at length during the meeting and which I thought was the most concerning thing I heard.

- Do you think it would be worth flagging this as an issue on which you want to know how Graeme is handling and resolving with AMIS for the PD review on 3rd March?
- Should we press again on this prior to sign-off on the Constitution St start tomorrow?

Stewart
