Hi Steven. Don't know what they're doing here. What they need is their own design management plan. Our one is just that and there is no question of them "amending" it! Their approach indicates to me that they are positioning us to be the fall guys between them and SDS so that all liability becomes ours. That cannot be right. Cheers. Tony.

Steven and Tony,

Please find attached an amended version of your design management plan. The amendments are made to align it with our requirements. The attached draft is not perfect or complete but should present a starting point for discussion at our meeting on Wednesday.

You may forward this to SDS for their comment/review on the basis that it is for discussion at this stage.

Scott
