Subject: FW: Utility design dates as promised

I'm sorry, I may not be in full view to the detail, but this seems to be going backwards?

This programme will not allow us to start on time.

We have discussed issuing drawings to AMIS to run in parallel with issue to SU's, and prior to tie approval to short cut the process.

Can we discuss as part of our programming review this afternoon?

Thanks,

Alasdair.

Gents,

Revised forecast dates hot off the press as of last night.

Carla has just been given an update from SDS Utilities team leader on forecast completion dates.

It doesn't make for very good reading with respect to the areas we wish to start MUDFA programme.

Regards,
