Hi Sharon

I have attached the TSS Risk Register as it stands - it covers risks to Capex only. This is currently being integrated into the SDS Risk Register on Active Risk Manager. They are having a workshop today to validate all the risks in that register so do not take the TSS Register as "final". Until SDS have updated their risk register (expect middle of next week) and I have access to ARM, I cannot give you a copy of the integrated register.

Please let me know if I can be of any further assistance. Also, it would be good if you could give me a copy of your RAM, or a list of your key risk transfer items, when it is complete in order that I can make sure that all the risks identified in the RAM are in the risk register.

Kind regards  
Nina

Can you bring Sharon up to speed on the status of development of the risk register (SDS migration of QRA, tie and JRC registers to the Project Register) and timetable to get this from James & Co?

Mark/Graham

Please could you send me a copy of the project risk register as it currently stands. I thought that it would be prudent to review this in the context of drafting the Infraco Contract.

Could you send this to me early tomorrow morning, if possible. So as we can get cracking...

Thanks very much

Sharon
