Hi David / Simona,

We seem to be speeding up with progress on the data collection - which is good!

Council

1. We have supplied Iain with a hard drive that he is getting over to BT for the Robocopy procedure (copying process that preserves creation and modification timestamps). I have spoken with an individual named Derek from BT who has confirmed that he is capable of running Robocopy in the manner required. Iain believes we may get copies of user home areas and the Project/s folder tomorrow.
2. We have been advised that there is no user area on the network for Andrew Holmes as he has retired and it has been deleted.
3. Sue Bruce and Nick Smith's laptops have been delivered to us and are being decrypted.
4. Sheena Raeburn and Ailie Wilson's desktop are with us now for copying.
5. Hugh Dunn's desktop computer and Alan Coyle's and Rebecca Andrew's laptop are to be delivered to us tomorrow.

TIE

1. The TIE Sharepoint/DocAve data is still copying. I will keep in touch with Seamus for regular updates. We both believe that the copying may not finish until next week.
2. Once the Sharepoint/DocAve data has copied, user home folders (those not deleted) will be copied. We do not want to put too much strain on the network/hard drives by running the copying simultaneously.
3. At this point we will also copy over email data. Seamus has said that he may be in a position to help us complete this next week.

Regards,

Chris

Hi,

Update on current proceedings.

Iain has a 1tb drive of ours to copy the home/project folders onto using robocopy.

Andrew Holmes has no user area as he is retired and it has been deleted due to the timeframe.

Sue Bruce and Nick smith's laptops have been delivered but need decrypting by the council.

Hugh dunns desktop is coming tomorrow.

Two towers should arrive this morning.

Alan coyles laptop is coming tomorrow and needs council decrypting.

And Rebecca Andrews laptop is coming Thursday.

Regards

Tom
