Fine on Tramco, I got a copy of the pre-ITN Report from Willie and it is a solid comprehensive document. If the stakeholders read it, there could be no subsequent comment about not knowing the content and the future options. If any roadblocks appear, feel free to get me involved.

I am more concerned about the approvals on design and wider implications. However, a comprehensive document setting out what CEC are being asked to do and when is definitely the key to progress. We are reviewing the overall programme on Friday morning and it would be good to have this on the table then.

Regards
Graeme

Graeme

Tramco- meeting tomorrow to talk TS, CEC and internal tie stakeholders through Pre ITN report. This is not without issues but I am working these through so we have proper QA type checks. Talked plan thru with Willie G and David McKay this morning and have agreed process to confirm release and PR process.
CEC design approval- Not overly surprised by this and Andrew H has asked to see me tomorrow late afternoon. By end of week I should have first draft 'Engagement and Approvals' schedule and will use this to apply pressure to them to sort the CEC resource process which while it has started is very slow.

If you have any views on either of above happy to chat thru tomorrow sometime.
Andie

Andie, two things arising from this am that I'd appreciate a word on :

- Tramco release – we discussed last week the “Pre-ITN Report” and talking it through with CEC and TS to get buy-in and understanding on all the key principles. How is this being executed ?
- CEC design approval – WG had a slightly worrying discussion with KR / AH after the Board, which is telling him that they are not geared up as we would want.

Could you give me a call to discuss or maybe we could grab half an hour before tonight's meeting ?

Regards
Graeme
