Subject: URGENT Contract Scope - Queries relating to Mediiaation and Settlement Agreement
Attachments: Contract Scope Intent Queries 08-12-11.xlsx

Dear all

A number of queries have arisen regarding what Infraco's scope and obligations are in the contract. particularly around utilities.

CEC have offered us the opportunity to meet with their Head of Legal and people who were involved in the mediation and the contract negotiations to explain their understanding of what the key issues, what agreements were made and what were the issues which were not resolved adequately.

To make sure we make the most of this opportunity can you add any general and specific examples to the attached list . Please note that this list is not intended to cover general interpretation, this is addressed in Steven's query tracker. The attached list is to identify scope and responsibility queries in order that we can get a better understanding of what constitutes a change (or not).

We have identified sections for the Off Street and On Street on separate tables. For On - Street we have listed all the Pricing Assumption Variations in order that we can gain a better understanding of what the implications may be.

Please provide further examples/queries to Steven Williams by Monday/Tuesday latest next week as the meeting with CEC is imminent.

[Peter - we need to do a cross check on the Risk Register to make sure we have captured all key risks]

(See attached file: Contract Scope Intent Queries 08-12-11.xlsx)

Regards
Gary
