Subject: Infraco Project Phoenix Proposal Analysis

Legally Privileged and FOI(S)A Exempt

Gentlemen and Susan,

Please find attached a consolidated set of documents summarising our analysis of the Infraco Phoenix proposal, including commentary on scope; terms and conditions; risk transfer; reconciliation of individual exclusions and clarifications from Infraco and tie's comments against each and finally a risk register which, where possible provides a pricing range for consideration.

Some of you will have received these documents in earlier versions, or in part. This provides an up to date summaries which support the assessment in the risk register circulated on Friday 4 March 2011. These assessments are necessarily imprecise, given the time available to fully analyse the qualifications and details provided by the Infraco. The risk register entries are not a "guaranteed maximum price".

Regards,

Steven
