Folks

As requested of me , Just to confirm BBS will advise on their view of a separation cost .
The Team CEC last night agreed to ensure probity ; all number should be subject to a third party QS view of the numbers would suggest three national practices with no previous involvement . Thoughts to progress that please

Regards
Colin

Steven

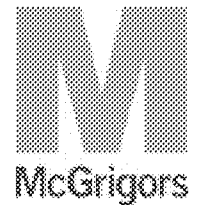

Further to your e-mail, I wonder if you have an update in relation to when the information might be provided.

Kind regards

Simona

Simona

Thank you for your note. I have discussed this with the team and we have probably got something which can be adapted readily (and quickly) for this purpose. Dennis will come back to me on Monday with an expected time of delivery to you.

Regards

Steven

Steven

At our meeting yesterday, we undertook to revert to you in relation to the information that it would be helpful for us to have in connection to claims by both parties under the Infraco Contract.

This forms part of the work that is being done to evaluate the automatic termination that would occur in terms of MOV4 if MOV5 is not entered into for reasons associated with funding.

As discussed, what we are looking for is a list of the claims that remain in dispute, with information in relation to:

- A brief description of the INTC, including value;
- Basis of dispute - for example, Pricing Assumption No.1;
- Indication of status - for example, "agreed in principle, dispute on quantum", or "dispute on principle";
- Whether the issue has been referred to DRP, and if so, the current position;
- Any other Infraco claims, not arising from INTCs;
- Any tie claims.

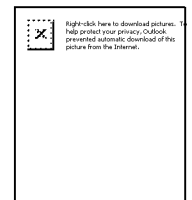

As you mentioned, we have information in relation to a number of specific items in dispute - such as INTC 536, or the adjudication on prelims. What we are looking for here is something which sets out all the matters in dispute, and categorises them in the way referred to above.

Kind regards

Simona
