Graeme can you let me know pl if the package has changed from as discussed Friday pm.

Andrew Graeme kindly updated me with the commercial deal. As we prepare for Tuesday if the terms are now final can you pl reissue DLA letter which will be current and final incorporating current procurement changes, CAF novation and any consequential changes and updating pl. As BBS are accepting current wording does that mean that early claims eg wll now be expected and can these terms be modified.

New package seems more appropriate to justify on procurement challenge.

Thanks
Gill
