I have been forwarded a copy of a letter from Bilfinger Berger which has been sent to all members earlier this afternoon and I have been asked to comment on whether or not members should respond and, if so, how.

My advice remains the same as before.

This appears simply to be an attempt to divide the Council, bring the debate into a public forum and hopefully make someone slip up in the process.

As you know there is due to be a full report to Council in December. If members could be asked to hold their nerve and not get dragged into replying for the time being that would be much better than responding now.

As ever, I am happy to discuss further if that would assist.

Could you please pass this message on to the members in your respective groups?

Many thanks

Alastair
