Sorry this should have been attached to the last e-mail.

It does require some explanation which I will give at the meeting tomorrow.

R

Subject: Peer Review Team recommendations

Julie,

Please find our recommendations with commentary for Richard's attention. Given the sensitivity of the matter we have not addressed the report. If Richard wants to discuss any elements further, I can act as the first point of contact given Malcolm's role as "phone a friend" in this to date. If Richard wants any changes of fact let me know.

We also discussed with Richard the on-going role of the Peer Review Team and Malcolm will be letting him have some observations on this early in the New Year.

Happy Christmas and New year to you both.

Mike
