Subject: John Ramsay update today

Dear All,

During my daily phone call to John Ramsay today he indicated that we are about to get a request from Transport Scotland for a full copy of the Infraco contract (which they have never had before) the purpose of which will be an independent review by D&W to provide Ministers with assurances there are no exposures to liability for them and no funding exposure beyond £500m committed.

I suggested he put the request in writing and that it is copied to all addressees of this email.

Regards,

Stewart
