As promised, the questions exclude VE which I am clearly following up a separate issue.

Steven

I've looked through the agreement and associated appendices and produced the attached question list which I hope is fairly comprehensive, excepting VE which I am pursuing separately. I've looked at the agreement objectively and some of the questions may be readily answerable and possibly naïve but I've tried to tease out those issues and areas which are either somewhat nebulous or require to be progressed.

Perhaps we could discuss, following which I'm happy to pursue with Geoff G + Andrew Fitchley.
