Dear Jason

Design Management Plan version 5.0

I enclose version 5.0 of the Design Management Plan. This has been updated to cover the situation beyond financial close and sets out how tie intends to manage the remaining design and approvals to financial close.

Changes from version 4.2 to which you are currently working have generally been limited to those needed to reflect the involvement of BBS and CAF and the changed commercial relationship between SDS and tie.

Yours sincerely,

Damian Sharp
Project Manager
Edinburgh Tram Project
