Given the experience of SDS, would it be worth setting up a work-shop with the appropriate legal and commercial personnel to walk-us through the detail of the MUDFA contract so that we are all clear on content and dispute resolution. We must ensure that we manage it properly – statement of the obvious but we have failed in the past. Also, we should perhaps build a monthly statement of compliance in our monthly report to TPD – no issues or actions would be an acceptable response but it ensures that we keep the focus current.
