Apologies. On subsequent review of the document I noticed that the diagram did not quite hang together. I enclose and updated version. For clarity I have also added in the dates of the key steps into the paper.

Regards

Further to the discussion at the Board yesterday I enclose the draft paper on the Infraco and Tramco revised Process to award for your review and comment.

In essence the steps are as those set out in the paper entitled "Infraco ITN and Tender Process" dated 29th September 2006 with a three stage process for the submission and negotiation of the Infraco contract. This has been necessitated by 1. the need to prioritise SDS detailed design work, 2. the staged delivery of Phase 1b and 3. the request by bidders for more time to submit their complete tender package.

We would like to submit this paper to the next DPD and so would be grateful for comments by the end of next week.

Please contact me should you wish to discuss the enclosed.

Regards
