Willie,

Duncan asked that I should forward you the email that I sent earlier regarding the road authority technical approvals, following your meeting with him this morning (see below). The table below summarises the slippage in the programme.

Thanks Claire.

From initial inspection, there appears to be quite a bit of slippage on the roads technical approvals.

I've listed the sections and the comparison between the baseline programme (V17), V22 and V24. We never got the opportunity so see V23. You'll see that over the Christmas period, we seem to have lost a month or so for our technical approvals. Do you know why?
