Either very Machiavellian, or it's just the view from the 91st floor. Either way, we continue with Plan A !

Regards
Graeme

Willie, a happy new year to you also. I saw Steve yesterday, and he briefed me on novation, design progress, et al. I stand by PB's view that novation would not achieve any additional protection for tie, and may conflict the SDS team from effectively solving, on tie's behalf, the inevitable questions arising from BBS' potentially commercial interpretation of what is completed design, versus their own work scope. I know that Geoff and Steve are diligently trying to reconcile wording on the "novation protocol", but wonder whether the time and effort would be better spent closing the open issues on Picardy Place etc. I appreciate that I am not privy to and do not understand the relationships and dialogue that you need to have with your financiers and CEC sponsors (adherence to business case principles) but if there is anything that we can contribute to the dialogue please let me know.

If you would like to meet towards the end of January, please call or contact me. I am in the US next week, and from tonight

Best regards

Greg

Subject: Happy New Year - update

Sent on behalf of Willie Gallagher

First of all may I wish you all a Happy New Year and a prosperous 2008.

With this in mind, we would like to ensure the Financial Close of the Edinburgh tram contract by 28th January 2008.

This means that all the main issues with all the necessary contracts has to be completed by 18th January to ensure the commencement of formal EU Notification of Intention to Award. I ask you to strongly commit to this timetable and encourage all involved.

With kind regards

Willie
