Mark

Conscious that we missed our meeting and have both been submerged. I am reissuing the paper as asked, but you and I still need a detailed session on risk transfer and insurance..

Th thrust of where I am on this is:

1. good to be ahead of the game
2. require engineering input to go nap on which contract form
3. Choice of contract will need to have no objection from NR
4. Choice of Contract form will be influenced by decision which havenot yet been reached - ie is there a DBFM component in the project or not?

kind regards
