Subject: Monthly report - land

Trudi,

Do you want to review my monthly report before I submit it at noon?

If so, because you don't have access to our G drive, please ask Clare to print it off or email it to you.

I have kept it very similar to the previous report. The main concern remains the non-engagement of CEC Legal. If they don't soon agree to certain assumptions we're working to on the notification process, it puts our tight programme at risk. And if we don't issue the 2nd GVD Notice in feb07, the May election would interrupt the process and potentially delay the Infracore start. I have not had time however to formalise the top 5 risks as the report form requires - and I do not think that would really add anything to Andie's knowledge: do you agree?

Clare - the 3 files are in:

G/06.19/1. Proj management/monthly reports/sept06/ And the files have a finance number prefix that I can't remember, followed by D&W, DV and Purchase, then sept and all end with GD update (eg 3.02_D&W_sept - GD update).

Text/call if you've any problem.

Geoff
