Attachments: Review of SDS DKE of CAF Tram Report 020110.doc

Hi Bob,

Here are some useful comments from Andy Steel.

HAPPY NEW YEAR!

Tony

Tony,

I have gone through this SDS report in some detail, digging back into my archives for previous documents for what has been a long running saga.

You are I am sure quite right to wait and see what the BSC proposals for mitigation are, because as seen it is essentially an SDS view. That sadly we know can be for their own reasons.

However I have some points in response to the issues raised by SDS. They are attached.

In view of the tram implications I have added Alastair and Roger to the recipients.

a Happy New Year to you all. I should say that we are still snowed in at Matlock!

andy

And I should have said that tie is awaiting BSC's proposals for mitigations to the identified conflicts.

Cheers,

Tony

Hi there,

This came out whilst I was away. Just realised it never went to either of you.

Cheers,

Tony
