**Attachments:** Risk Management Reporting Proposal.doc

Lorna

What a wonderfully enlightening document. If you ever feel a bit down in your job, you should read this. It will instantly make you feel grateful you not a risk manager.

I sort of follow some of their logic here...although I am not sure I really want to admit to that and please don't ask me to explain it to anyone!!!

Anyhow, if this is the way they want to go about it, for loading the master schedule, I think it would be ok to give them the green light. It will provide the information we need in the format required.

Other Promoters do not appear to have had any real problems with this...it will be interesting to see what EARL do.

Let me know if I can help with anything else.

Cheers

Gerry

Hi Gerry

Following on from our last meeting with tie please see attached.

We can discuss later on today.

Lorna

Further to our recent meeting I enclose our draft proposals for dealing with risk. This sets out the way in which we propose to analyse the risk data for the purposes of meeting TS reporting requirements.

Regards

Geoff Gilbert
