Gill

I am going through the list as we speak referencing in the supporting documentation where relevant.

Thanks. This is helpful. Is there a view on whether and to what extent all reqd matters are contained in close report and DLA letter and update letter, and, if not, what additions are reqd to address this. Meeting am Friday advised no issues other than as discussed by all there. It would be very helpful if this was finalised at tonight's LAG.

Dear All

Please see the revised Contract Approvals sheet. For version control please ensure any changes come through Andy or myself as we are pulling together the Final CEC closure documents.

Alan
