Gentelemen   The Council is due to consider the initial outcome of the mediation and the provisions of MoV4 on Monday. The attached drafts are the latest iterations of the Council report. These have been taken as items for noting at this stage as our elected members wish to see the full details of MOV5 before holding a formal debate on the issues.

We are planning to put this information into the public domain today and as this will represent a breach of the confidentiality agreements that we signed at Mar Hall.   I would like therefore to seek your formal consent to break the agreement for this purpose. Kind Regards.   Dave Anderson
