Geoff

We still have issues with accepting design risk. We have not priced this contract on a design and build basis always believing until very recently that design would be complete upon novation. With the exception of the items marked provisional which we have now fixed by way of the 8 million we cannot accept more drain development other than minor tweaking around detail. Your current wording is too onerous. Trust we can find a solution.

Richard

Richard

We went through this at the Board today and generally everyone was ok with it. However, to get CEC's buy we need to make a few changes. I have also corrected a few typos as well. I don't think there is anything controversial in this but call me if you wish to discuss.

Regards
