Russell,

Without the answers to our outstanding TQ's on this section, CUS are unable to plan the works, because we don't know what works are to be carried out. This is obvious.

The delays are firmly on TIE to issued CUS with redesigns or instructions on what works are to be carried out.

I agree the program meeting should be cancelled, but it should be replaced by a meeting to sort out the outstanding issues

Mark

Mark,

WE have asked CUS to provide an updated programme over the last few weeks and each time they do not make sense, are out of date even after the date of issue, and even have items on them not started which are showing completion!

If this is your attitude then frankly I have no alternative to reject the programme.

Until such times CUS produce a programme that I can agree to, then no further claim for delay will be entertained.

The meeting is now cancelled until further notice.

Regards
Russell Maxwell

Russell,

Before a program of any merit can be produced, the many outstanding issues must first be addressed.

Therefore please answer all outstanding TQ's and I will happily produce a relevant program.

Mark

Mark,

In light of various recent programmes produced , i am of the opinion [and i am sure you are also] that various "flaws"/sequencing faults keep appearing no matter what revision we are working to.

Can you arrange with your planner for both of you to attend a meeting in the MUDFA offices on Tuesday 11am, 10/11/09, where myself and Tom Girvan can discuss.

Regards,
Russell Maxwell
