Subject: MUDFA Commercials

Stewart / John,

I have had a read of the recent MUDFA report which identifies circa 3 week slippage which will be attempted to be recovered by additional resources. There are also a few other meaty commercial issues lurking in the report.

I would like for you to arrange a Commercial Review session with Graeme and John to better understand the potential financial impact of AFC and contingency.

This is a monthly meeting we should have in the diary anyway, it is not a topic for the MUDFA sub-committee where AMIS are present.

Next week would be good,

Willie
