Subject: letter to SDS

Dear Alan,

Ref; Adien survey final report

We refer to numerous discussions and correspondence regarding the above referred to matter. We note that despite our requests, we still await validation and confirmation that the surveys carried out do indeed reflect the extent and nature of the services indicated in the records produced by SDS (from the previous Adien surveys). We would strongly recommend that this matter is addressed urgently to allay any concerns that we are progressing the utility diversion works with sub standard and erroneous information, which may compromise the work being progressed and planned.
