Just think of the fun this is going to bring. They are going to run with this, no plans and no feeling on budget. Opportunity knocks!!!

Barry / Steven,

At my meeting with the Minister today, we discussed one of the emerging options which involves the TramStops at Gogar and Edinburgh Park. In essence, what would it mean for us if there was to be a new Rail Station at Gogar which would provide a high volume interchange with Tram.

In a spirit of co-operation, I offered to come back with some drawings of what it might look like, where it might be best situated, what it would mean for the current Tram plans, what are the implications for Land, how quickly could it be constructed and ball-park budget implication for tie.

Barry – could you run with this one. We need to keep the involved parties tight and I would like to get it back to John late Monday or Tuesday.

Your mission should you choose to accept starts now!

Willie
