Dear David

This communication is just to confirm where we are following your telephone conversation with Richard Jeffrey on Monday.

1. It is our understanding that it is BSC's preferred position to present a proposal for Project Phoenix based on a scope of works from the Airport to Haymarket.
2. It is the clearly stated objective of **tie** and CEC to have an operational tram as least as far as St Andrews Square.
3. At the meeting with Sue Bruce on Tuesday, 15th February 2011, your Dr Keysberg expressed a desire to remain involved with the Project beyond Haymarket. However, despite him expressing this desire, I understand that you are only submitting a proposal for Project Phoenix which goes as far as Haymarket.

I would be grateful for your clarification.

With Regards

Vic Emery
