### Phoenix Update – Summary

Incremental Delivery Options Summary			
Airport – to Haymarket	608.3	620.2	668.7
Airport – to St. Andrews Square	625.7	639.5	688.9
Airport – to Foot of the Walk	656.4	674.5	725.5
Airport – to Newhaven	696.7	720.5	781.4

- Current funding available is £545m with CEC contingency to £600m
- Assumption of £33m premium to BSC included in for settlement (over our QS evaluation)
- Decision required on Tram ownership. Lease or Sale could generate significant capital (TS buy-in)
- New procurement costs evaluation and market appetite for risk on the project is a big factor
- Design completion and guarantee decision. SDS are reason for many of the projects difficulties.
- All Project costs require a fully re-based plan
- Delay will continue to push this cost up if no action on project costs
