Willie Thanks I'll ask Marshall to review the programme with Mark Turley and see what we can do without unduly affecting our own budget profile. We'll get back to you as soon as possible and will aim to work the maintenance programme to minimise disruption to the tram and the public transport network. I am not sure about arrangements for other utilities but I would hope that we ought to be able to restrict them to emergency repairs only in MUDFA affected areas of the city. Regards Dave

Dave,

At the tie Board on Wednesday August 13th, amongst other things, the Board considered the Traffic Management arrangements for both MUDFA and InfraCo. I attach for your information a copy of the Programme. The Board commented on the importance of coordinating the Tram Works with all other planned Traffic Management schemes for Utilities and Road Maintenance & Enhancements. If schemes are non-critical, is there a possibility that they can be rescheduled until the peak of the Tram works has passed?

I am sure that this coordination issue is a high priority for your staff and my staff would be happy to provide with further detail if that would help.

Kind Regards,

Willie
