Simon

Excel spreadsheet attached.

This was compiled from my knowledge of where we are plus discussions with tie owners where possible as at cob Friday 15/4

As far as I know they are up to date but there may have been progress between SDS and CEC on some design items that hasn't yet been reported to me - if so then we will be happy to be updated.

In relation to item 1 (OLE base conflicts with SW equipment) there was a further meeting since then. As a result of that Colin Neil and Steve Downie are ready to make a push to get all instances resolved in the next fortnight but to do that we urgently need a list of the instances where this is a problem.

Damian

Would you be able to provide the word version of the document handed over by Frank at today's Progress Meeting such that we can add our responses to your stated positions.

Please also confirm that the "tie position" and "Status / Actions" columns are up to date as of 23 April 2011 (ie end of Period 4-1) or advise the date to which your report is based.

Kind Regards / Mit freundlichen Grüßen,
