Alan

Find attached our report on the potential costs associated with the line extension to Leith. Please contact myself or Gary should you require any further information to support this report.

The report has been written in a manner that could be shared with third parties if desired. I have also attached some backup from spreadsheets we have used to develop the unit rates which include some analysis of the Infraco price and data sensitive to T&T which we would prefer were not shared with third parties. Please let me know if these need any further explanation.
