**Subject:** Home Office consultation - transparency

Dear Colleagues

We would like to invite you to take part in the Home office consultation on the transparency section of the Home Office Business Plan (pages 27 to 34).

The transparency section contains our Information Strategy for making our data and information publicly available. It includes a proposed list of input and impact indicators which can be used to assess our performance in key priority areas. The purpose of this consultation is to seek feedback to ensure that it contains the most relevant and timely information and technically robust indicators.

The business plan is available at [www.homeoffice.gov.uk/publications/about-us/corporate-publications/business](http://www.homeoffice.gov.uk/publications/about-us/corporate-publications/business)

To respond to the consultation go to <http://www.homeoffice.gov.uk/publications/non-personal-data/corporate-data/transparency-sec-of-bus-plan/>.

Thank you

**UK Border Agency Partnerships and engagement team**
