Gentlemen,

Please find attached proposal from Siemens for your review/agreement, this proposal has been developed by Siemens outside the project and consortium parameters, is made in good faith, and can not be considered as a breach of the Contract or Consortium agreement.

In the event that this proposal is acceptable the next steps would be a kick-off meeting with the proposed Framework Management Team at 10:00hrs Friday Morning in tie building. For this kick-off meeting only, Siemens (M Flynn) would chair the meeting to make sure there is a common basis to move forward, and then the chairmanship would revert to tie.

Please confirm your agreement to this proposal by 17:00hrs today to enable the necessary logistics to be prepared.

Kind regards,

Joerg Schneppendahl
