Importance: High

Brandon – further to the various emails exchanged with Steven over the last few days regarding the above, please see attached an explanatory note (and supporting documents) on the following item:-

4.a(i) Infraco Default - On Street Trackform Design and integration - Failure to programme "Deliverables" as required by Clause 10 of the Infraco Contract

This is more of a contractual argument and as such does not require extensive documentary evidence in the way that others will require. We can however provide further programme and documentary evidence supporting the position if required. In this regard, further more detailed background explanation is included in the draft narrative re RTN06 issued to Simona previously (on 09/02/11 at 18:51hrs). We can pass a further copy of that document on if you think that would be helpful.

Kind regards

Robert
