Please can you both co-ordinate a draft response for the Chief Executive as soon as possible to Councillor Barry's email?

Very much obliged.

Sandra

Dear Tom

I should be pleased if one of your staff could give me some advice about the problematic contract for trams and an understanding of the relationship between the various parties.

What is the relationship between TIE/TEL/CEC/BSC?

Is there a contract between TIE and CEC?

BSC have written to us all and say that the risk for any delay or unexpected thing lies with CEC so what is the contract we have with BSC and what is the councils exposure to delay etc. risk. and why is this risk not with TIE alone?

Which individuals from CEC and Councillors signed the contracts with BSC and in what capacity did they sign?

Where can I view a copy of the contract with BSC?

Where can I view the results of arbitration?

I would hope you are able to supply this information but if you require a FoI request please treat this as such.

Thank you

Eric Barry
