

For the attention of Martin Foerder Project Director Bilfinger Berger Siemens CAF Consortium 9 Lochside Park EDINBURGH EH12 9DJ

Our Ref: INF CORR

5464/RB

Date: 30th June 10

Dear Sir.

Edinburgh Tram Network - Infraco Information & Audit Access - Management of Design

We write to express our concern with BSC's lack of co-operation and engagement with the Clause 104 Information & Audit Access process on the Management of Design, initially notified to you on 6th May 2010. Our main concerns are:-

- 1. On three occasions tie have requested the facilities detailed within Clause 10.4 of the Infraco Contract be made available to them. The three occasions being:
  - Verbal request at the audit meeting of 14<sup>th</sup> June 2010.
  - E-Mail request from our Bob Bell to your Stefan Rotthaus on 17th June 2010 at 14.31.
  - E-Mail reguest from our Bob Bell to your Stefan Rotthaus on 24<sup>th</sup> June 2010 at

To date, no response has been received from BSC to our repeated and reasonable request.

- 2. At the audit meeting on 25th May 2010 Bilfinger Berger's (not Infraco's) legal representative advised tie that any information requested by tie with respect to Compensation Events would not be provided as this would be provided in due course in accordance with Clause 65.1. tie disagreed with this position in two respects:
  - Pinsent Masons are acting on behalf of Bilfinger Berger, not Infraco, tie requested confirmation of Infraco's contractual position in writing on this matter, and,

Citypoint Offices, 65 Haymarket Terrace, Edinburgh, EH12 5HD Tel: +44 (0) (3) 623 8600 Email: info@edinburghtrams.com Fax: +44 (0) (3) 623 8601 Web: www.edinburghtrams.com

Direct dist: \* a-mail:sleven.bell@@e.ltd.uk web: www.tie.ltd.uk  BSC's obligation under Clause 104 is to provide information as may be reasonably requested, tie consider their request to be reasonable.

BSC agreed to revert with Infraco's contractual position as requested by tie.

To date, 5 weeks after our request, BSC have not provided any information as requested on Compensation Events and Infraco have not confirmed their contractual position in this respect.

 tie have requested any and all correspondence, documents, Instructions, e-mails etc that relate to an SDS "commitment to assist BSC in securing tie changes in respect of change from BDDI to IFC drawings". (BSC Design Management Review meeting minutes of 1<sup>st</sup> July 2009 refers).

BSC have advised that this commitment was first made in a meeting convened by BSC on 2<sup>nd</sup> June 2009, and that no minutes of that meeting exist. BSC have advised that no correspondence exists on this matter other than e-mails provided under transmittal 4303. Despite repeated requests BSC have not confirmed whether any other documents exist on this matter.

tie have requested all of the ATRs/Instructions/timesheets associated with delivery of this commitment. Despite the referenced minutes stating that BSC will "maintain current basis of staff ATR or use of Construction Support (not ECS) resource", BSC have advised that they do not think there are any as this should be library support under the SDS contract but that they will carry out further checks.

tie note that no outcome of these checks has been communicated to tie. This is an unsatisfactory and inadequate response.

tie have requested copies of the handwritten notes of each of the attendees from this meeting. We are advised that no BSC notes are available. To date no notes from SDS have been provided.

4. In relation to Paragraph 5 of the meeting BSC Design Management Review Meeting held on 1 July 2009, tie requested all the Minutes of Meetings held on the "SDS commercial issues" referred to within this minute.

BSC advised that this meeting did not take place because BSC had requested a meeting with tie in July 2009 prior to their discussions with SDS, but that tie had not responded to this request.

In the absence of the specific minutes requested, the requested minutes of all BSC / SDS meetings, which includes commercial matters (emphasis added for clarity).

BSC responded stating, "There are no minutes of meetings relating to the commercial issue".

BSC's response is unsatisfactory and inadequate. Please provide the information as requested.

- 5. Despite being issued with an audit scope detailing the criteria to be audited, BSC have at no stage provided any information without the having to provide very explicit detail of the type of information required or the specific document sought, e.g. the have had to ask for a search of correspondence and minutes of meetings within your electronic document control system against specific key words as opposed to BSC providing the with relevant documents, records or other information falling within the audit scope.
- At our meeting of 7<sup>th</sup> June 2010 a number of documents were identified to BSC to provide to tie. Three weeks have now passed and this documentation remains outstanding. The outstanding documentation is listed on the attached spreadsheet which includes additional information requirements following your submission under transmittal number 4629.
- At our meeting of 14<sup>th</sup> June 2010, tie sought confirmation that no amended or additional agreement had been entered into between Infraco and SDS, and/or between any of the Infraco parties and any of the SDS providers.

Following the meeting an exchange of e-mails took place on this topic as BSC disagreed with tie's record of the question asked at the meeting. tie issued the following by e-mail (B. Bell to B. Ochoa, 14 June 2010 at 16.36) to ensure clarity:"....... for the avoidance of doubt, please confirm by 12 noon tomorrow that no amended or additional agreement has been entered into between Infraco and SDS, and/or between any of the Infraco parties and any of the SDS providers".

No response was received and a follow up e-mail (B Bell to S Rotthaus, 16 June 2010 at 15.39) sought a response by close of business that evening. Again, no response was received.

This matter was raised at the weekly General Issues meeting on 21 June and 28 June 2010 and you have advised that you are considering your response. tie believe their request for information on this matter to be a reasonable request under the Infraco Contract and that Infraco are acting unreasonably in delaying their response to this request.

8. As a result of a document search, BSC provided minutes from a Design Management Review meeting held on 17 June 2009. At our meeting of 14 June 2010, tie requested a copy on the instruction from BSC to SDS referred to in relation to completion of the design (item 2.2 of the above minutes).

A response was issued on 16 June 2010 by e-mail (S Rotthaus to B Bell, at 15:25), stating "provided under transmittal no 4308". Numerous documents were provided under this transmittal but tie have been unable to trace such an instruction. tie again requested this information by e-mail (B Bell - S Rotthaus, 17 June 2010 at 14:31). BSC responded by e-mail (S Rotthaus - B Bell, 24 June 2010 at 0827) that the instruction was contained with BSC letter referenced 25.1.201/CBr/2707. tie have complained that this response (e-mail B Bell - S Rotthaus, 24 June 2010 at 14:23) is unsatisfactory. The minute of the meeting referred to clearly states "BSC will instruct SDS to complete the design ....." (emphasis added for clarity).

The letter referred to by BSC as the instruction pre-dates this meeting (28 May 2009), and specifically states in its second paragraph "we do not believe you are entitled to further instruction".

To date the copy of the instruction requested by tie remains outstanding.

## Audit Completion

The remainder of this audit will commence on Monday 5th July 2010. Given the lack of engagement and co-operation to date, tie anticipate the audit will require your continual engagement during the following periods.

- Monday 5<sup>th</sup> July to Thursday 8<sup>th</sup> July 2010 inclusive. Monday 12<sup>th</sup> July to Thursday 15<sup>th</sup> July 2010 inclusive.

To improve the flow of information, tie will utilise the facilities previously requested and in accordance with Clause 10.4 of the Infraco Contract. Please ensure that these are made available from 12.00 Noon on Friday 2<sup>nd</sup> July 2010. Additionally, access may be required to your Document Control room and the relevant files of the BSC design management team, including the respective commercial team.

Clearly, if the information flow is improved upon, both parties will benefit from a faster conclusion to this matter. Please contact Bob Bell should you require any further information.

Yours faithfully

Project Director – Edinburgh Tram
