Trond

We have advised previously that CEC do not wish the SESTRAN bpis to apply to the city. please amend wording to reflect this position.

Trond

Para 2.1 – SEStran cannot “stipulate” what happens in this Council area.

If the proposed “minimum requirements to be applied within the SEStran area” are already met by those Councils who have their own Strategies, I have no objection to that phrase. If not, I do.

If you intend individual Councils to be able to adopt the BPIS they would have to follow statutory procedures and therefore when you advertise the draft I think you would have to have their names on the advert in addition to SEStran (or with SEStran as agent) – otherwise they would have to readvertise in their own right. As this Council has a BPIS, please do not include our name in the advert.

Para 3.3 – please delete last sentence. If Falkirk’s BPIS is not the same as SEStrans’s, this would imply that we should go back to Committee and through the statutory processes all over again. As I understand it, such duplication of effort was never intended.

John

Subject: Report to the Board; Bus Passenger Information Strategy (BPIS)

Importance: High

Please find attached the covering report. The issue was discussed yesterday at the BPIS Steering Group and the report should hopefully fit in with what was agreed. We are still awaiting the latest draft final report from Atkins – following yesterday's discussion and agreed changes.

Please come back with any comments by return .. as time is running out! .. Once more, apologies for the rush ..

Regards,
Trond
