For the attention of Steven Bell -- Project Tram Director

Dear Sirs,

**Edinburgh Tram Network Infraco
Vesting of Materials Stored at Broxburn**

On 19 April 2010 Siemens provided by e-mail its proposed Certificate of Vesting to tie in respect of Materials and Parts in respect of traction power supply equipment stored by Siemens at its warehouse in Broxburn. Pursuant to the Certificate of Vesting Siemens shall transfer title in the Materials and Parts listed in Schedule 1 of the Certificate and property therein shall pass and vest absolutely with CEC.

Siemens consider that the execution of the aforesaid Certificate of Vesting will afford the following benefits:-

- Immediate vesting of title in favour of CEC in the aforesaid Materials and Parts absolutely and free from all security interests, encumbrances, charges or other third party rights;
- Avoidance in full of any possible entitlement or liability for future increased costs or finance costs whether by way of escalation or otherwise in respect of the value of such Materials and Parts, including but not limited to increased procurement costs, shipment and third party storage costs;
- Protection for CEC from third party rights;
- Increased control and flexibility over use, storage and inspection of Materials and Parts;
- Facilitation of future acceleration or mitigation measures;
- Evidence of discharge of obligations of tie in respect of 'best value'.

Siemens trust that the attached Certificate of Vesting meets with your approval and trust that tie will be a position to confirm its acceptance of the same in the near future. We propose to make appropriate deduction of the amount of the proposed interim payment from the Construction Milestones Payments identified as 'OLE' in Schedule Part 5 of the Infraco Agreement.

Yours faithfully
