12 July 2013

Dear Sirs

We write on behalf of the proprietor of the business of Robbie's Services, 3c York Place to intimate a claim for loss due to the ongoing tram works. The shop is on the corner of York Place and North St Andrew Street and has been surrounded by road works almost consistently for the last five years. For considerable periods there have been barricades beside the pavement on the corner involving customers having an extended walk to reach the shop from Queen Street/Dublin Street/north side of York Place.

The loss of business has become so severe especially with the latest works outside the shop that income is no longer supporting the business and the property has been put up for sale. While it is bad enough for companies to suffer substantial loss it is much worse for a private individual nowhere near retiring age having to sell up a business which has been a source of income for himself and his parents over the past 30 years and more. Last week by midday the only income amounted to £5.50!

We should be obliged if you can indicate to us what proposals you have for compensation.

Yours faithfully

[REDACTED]
