4	Time schedule report	21

1 Executive Summary

Progress

tie's assessesment of the cumulative progress achieved to the end of Period 5 for the Post Mediation Programme MOV4 Prioritised Works Rev.3A is 50.9% against a plan of 62.9%. Details of how this is broken down can be found in the progress section of the report.

There were no productive works executed On-street during the period following BSC'S decision to demobilise from active worksites at Lindsay Road and Tower Place bridge. Progress Offstreet has continued in Section 2A at Haymarket Yards, and in a few discreet areas within Sections 5c and 6.

The total cumulative completion for Infraco Works for the entire route (Airport to Newhaven) is 30.1% at end of Period 05.

Post Mediation Programme (MOV4) Revison 03A

tie have made their own assessment of progress against the MoV4 Prioritised works programme by comparing the progress figures reported by BSC, with those reported by tie's own construction team. The output of this assessment can be seen in the table below:

Comparative Reported and Assessed Percentage Complete Per.05 2011-12										
Section	Rev.03A Dated 28- Jun-11 Planned %	Rev.03A Dated 28- Jun-11 BSC Reported Actual %	Rev.03A Dated 28- Jun-11 tie Assessment of Progress	tie Estimated delta to Rev.3A Programme						
2A - Haymarket to Roseburn Jnc	59.4%	52.9%	52.9%	-2W

7A - Gogarburn to Airport	100.0%	100.0%	100.0%	N/A						
Off-Street Section	62.9%	53.2%	50.9%	-3W						

Design

IFC Design

BSC submitted SDS V70 programme to **tie** on 09th May 2011. Although **tie** are aware that later versions of the SDS Design Programme are available, v70 is the last formal issue to **tie**.

The design status summary at Period 5 is as follows:

IFCs – Phase 1a: 204 issued out of 241 (85%)

- 60 Prior Approvals are included in v70 57 of which have been granted those remaining include Canopy & Boundary Treatment at Edinburgh Airport and Roseburn Viaduct Value Engineering option
- 56 Technical Approvals out of 63 have been granted in V70
- Roads approvals One area remains outstanding from the V31 Technical Approval in Phase 1a (1C2- Picardy Place to St Andrew Square);

Design and consents reviews are being progressed as a post mediation escalated workstream.

FULL ROUTE PHASE 1A NEWHAVEN ROAD TO EDINBURGH AIRPORT	0.0%	0.6%	0.6%	100.0%	30.1%	-69.9%	100.0%

Progress Points to note in Period 05:

- Depot building near completion with Civil Contractor's work almost finalised.
- Depot Access Bridge completed to wearing course level. Now being used as main access to site.
- A8 underpass progressing well with Traffic change over completed on the 7th August.
- Water of Leith sewer lining works commence in period
- Scottish Power have agreed solution to issue surrounding 132kv cable at Roseburn Viaduct
- Assembly street abandonment work progressing to revised programme.
- Edinburgh Gateway issues seem to be resolved allowing full design to commence after some lengthy backward and forward movements between designers

Issues in the Period

- Clarity required surrounding issues within section 1A where BSC have been "instructed" not to carry out any further works.
- Utility Conflicts within on street section of the works being highlighted in order to afford some time for all parties to participate in agreeing best solution for the Project. BSC'S input along with the designer and utilities is critical to this process.
- Still outstanding issues regarding Network Rail's construction health and safety plan. This in turn has an effect on the required track monitoring plan which could delay start planned for September in various areas
- Draw down agreement still to be finalised with BAA. Agreement in principle was reached with CEC/EAL on 17th August 2011 for a commercial settlement between the parties. This

Progress Report Issue 1 Period 05

should enable the planned commencement access for the the piling at the airport Tram Stop/retaining wall.

Tramco

Period 05 Summary - Tramco

No	Planned	Activities in current Period
1	Fabrication of the trams	All 27 trams have been completed.
2	Enhanced passenger information upgrade	Plan to fit additional latest equipment (if any enhancement is required) when trams arrive in Edinburgh.
3	Review of Test Protocols and test results	ETL's testing & commissioning plan is now being finalised and integrated into the BSC test and commissioning plan, the first version of which has been reviewed and discussed with BSC.
4	Depot Equipment	CAF are continuing progress, delivery of the sand filling plant is scheduled for September 2011, Siemens have now completed installation of their plant with the exception of the Tram wash plant fitment which is currently underway.
5	Finalisation of external branding	Application of final branding to be applied whilst trams are stored at the factory prior to shipping to Edinburgh.
6	Tram O&M Manuals	Update (if required) after experience of the trams in the field.
7	Key sub-contract placement	Collateral warranties – 3 signed warranties have been received, remaining continue to be progressed.
8	Factory Based Acceptance Testing complete	All 27 trams have successfully completed factory testing to date. 100% of trams now completed and tested.
9	Testing regime	Preparations are being finalised for the testing in Edinburgh which is planned to start with static testing at the Depot commencing in October and dynamic testing between the Depot and Gogarburn commencing in December.
10	Programme progress	90% of scheduled activities completed.

Preparing for Operations

The Operational Readiness team are continuing to work closely with the **tie** and BSC programme teams to coordinate progress at the Depot, good progress in this area has been made. Work has now been started again in the control room after the successful Factory Acceptance Tests were completed at Siemens Ashby plant during July.

Overhead line equipment has now started to be installed in the Depot Workshop and the trackwork on the tram delivery road is completed as well as both shed aprons with the completed workshop tracks now connected to the stabling tracks. Siemens are now using a tamper to set the line and level of all of the trackwork.

Good progress is also being made with the Test track with the laying of sleepers and placement of rails between the Gogar Church area at Gogarburn to the Gogar Castle access road with the concrete slab well progressed between the Gogar Castle road and the East side of the Depot Access bridge.

Progress Report Issue 1 Period 05

The operations mobilisation supervisor and two of the secondees from Lothian Buses attended and participated in the Factory Acceptance Testing of the control room SCADA equipment in late July as part of their familiarisation process prior to starting the formal training programme. We are about to carryout induction training commencing the last week of August prior to the team attending tramway training at Nottingham tram system for a 4 week course in September. They will then be ready for the delivery of the trams to the Depot (planned October 2011) and the availability of the test track for testing.

Support is being provided to the MOV5/Settlement discussions with a revised set of Employers Requirements to reflect the reduced scope and the novation back of CAF's Tram Supply and Tram Maintenance obligations.

Cost

During March 2011 the Infraco, CEC and tie Ltd held constructive mediation discussions. Transport Scotland were party to those discussions. During mediation, heads of terms in a possible way forward were agreed by the Principals representing each party. A number of workstreams then flowed from those 'heads of terms' which included a proposed Minute of Variation (4) to the Infraco Contract which governs Prioritised Works and the vesting of materials with CEC.

In the early hours of 11th May, CEC and the Infraco agreed the wording of a draft minute of variation (MOV4) to allow the Infraco to progress works on Prioritised and Auxiliary workstreams. CEC's commercial advisor (Colin Smith of Hg Consulting) negotiated the payment schedule on behalf of CEC. During mid-April the Infraco contractor began to remobilise on a number of sites in-line with the priority works payment schedule. Payments of £57.9m have been made via tie Ltd to the Infraco to the end of Period 5. These payments were made by tie Ltd to the Infraco as instructed by CEC, in accordance with Hg Consulting's Certification of works and materials. MOV4 was formally executed on 10th June 2011.

The 'AFC' (£545m) in this report does not reflect an approved and reliable Anticipated Final Cost for the Edinburgh Tram Project. Rather, the forecast presented reflects the best view of the spend profile of the funding currently available for the delivery of phase 1a. Given the continuing commercial uncertainties with the Infraco and continuing delays to the project it is considered unlikely that the full scope of Phase 1a will be completed within the available funding envelope of £545m. It is not however possible at the present time to accurately forecast a reliable outturn cost until the key commercial issues are resolved through the contractual and legal process. It should also be flagged that the profile of the forecast for 2011/12 is likely to differ significantly from the original cashflow forecast following the agreement in execution of an MOV4 prioritised works schedule.

On 25th August 2011 The City of Edinburgh Council will meet to confirm if funds for the St Andrew Square / York Place option will be purified. Until all key issues are resolved through the contractual and legal process, it will not be possible to accurately forecast a revised budget outturn.

Key cost related items to note in Period 5 are:

COWD to date is £486.3m, with funding to date split to TS (£446.2m) and CEC (£40.1m).

Period 5 (four week) COWD was £8.1m. The £8.1m can be split into the following constituent parts:

■ £6.6m payments to the Infraco in line with MOV4 payment schedule

Progress Report Issue 1 Period 05

£1.5m relating to Resources and Other Cost items

YTD 2011/12 COWD is £74.9m for P5.

■ The budget for ETP in 2011/12, established in Period 1 2011/12 was £133.5m (£142.2m 09/10). Transport Scotland funding for 2011/12 was £122.5m for ETP, with £11.0m funding available from CEC. This is subject to revision dependent upon the final mediated settlement between the Infraco, CEC and **tie** Ltd.

Risk & Opportunity

Drawdowns on risk and contingency to the end of Period 5 2011/12 now total £78.5m. The remaining risk balance based upon the original funding agreement and additional funding for items put 'on-hold' (£16.1m) is now £0.1m.

Stakeholders and Communications

Media / Press Activity

Following the June 30th Council meeting, which gained a considerable amount of media coverage, the number and frequency of press enquiries, has declined. A summary of the main press stories are below.

The Sunday Herald continued their ongoing coverage of the project based on information released via the Freedom of Information process. The information concerned the costs of works to date since mediation which also covered the acquisition of systems and power equipment from one of the project contractor Siemens, for the length of the whole tram route.

The Evening News has also maintained consistent coverage of the project throughout this reporting period. Their two main stories focussed on severance details for Richard Jeffrey and also on the fact that our bid to lease tram vehicles to Croydon was not accepted. Both stories were followed up by several Scottish newspapers including the Scotsman and Herald.

Partner and Stakeholder Communications

Notifications were delivered to stakeholders and key partners during the past month regarding on street work which was due to be carried out in their area. This included:

- Princes Street Tram Works x 1350
- Assembly Street Water Interruption Notices x 150

In addition to written notifications detailing the Princes Street work programme, one to one sessions were held with retailers on Princes Street to ascertain their logistical needs including deliveries and collections of goods and refuse. These surveys have been carried out so that a logistics strategy can be put in place for the duration of the remedial work on Princes Street.

Freedom of Information Requests

Freedoms of Information (FOI) requests have decreased over the last four weeks from a total of 19 requests at the end of Period 4 to 11 being carried over to next month. The majority of these requests have been submitted by journalists regarding various topics of interest.

Progress Report Issue 1 Period 05

2 Progress

BSC have, since April 2011, declined to provide period updates against the Revision 01 Contract programme but are providing information against the revised Post Mediation Prioritised Works (MOV4) programme Rev.3A.

This report below continues to provide progress figures based on **tie** determinations against the Revision 01 Programme.

There is also some further opinion on progress made against the *Post Mediation Programme* (MOV 4) Prioritised Works Rev.03A dated 28-Jun-11 using the actual percentage completes reported by BSC.

Following finalisation of the settlement agreement, a revised full programme will be reported against.

Post Mediation Programme (MOV4) Revison 03A

tie have made their own assessment of progress against the MoV4 Prioritised works programme by comparing the progress figures reported by BSC, with those reported by **tie**'s own construction team. The output of this assessment can be seen in the table below:

Comparative Reported and Asses	sed Percenta	ge Complete	Per.05 2011-	12
Section	Rev.03A Dated 28- Jun-11 Planned %	Rev.03A Dated 28- Jun-11 BSC Reported Actual %	Rev.03A Dated 28- Jun-11 tie Assessment of Progress	tie Estimated delta to Rev.3A Programme
2A - Haymarket to Roseburn Jnc	59.4%	52.9%	52.9%	-2W
5A - Roseburn Jnc to Balgreen Rd	25.0%	2.6%	N/A	-3W
5B- Balgreen Rd to Edinburgh Park Stn	0.0%	0.0%	N/A	N/A
5C-Edinburgh Park Stn to Gegarburn	65.2%	56.4%	51.3%	-3.5W
6A -Gogar Depot	59.7%	53.1%	52.3%	-2.5W
7A - Gogarburn to Airport	100.0%	100.0%	100.0%	N/A
Off-Street Section	62.9%	53.2%	50.9%	-3W

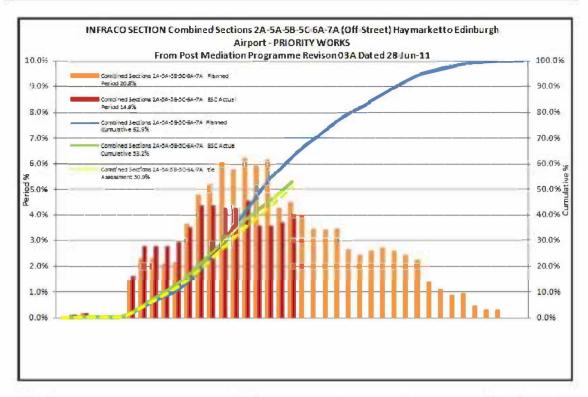

Note that as the electronic Primavera files have not been supplied by BSC, tie can only make an assessment against the work content / activities that were programmed to be undertaken in the period since the *Post Mediation Programme* (MOV4) Revision 03A commenced on 3rd May 2011, with those reported to have been progressed. With the limited information available, tie are unable to make any determination on the effects of this progress on critical paths, nor confirm the impact on forecast Sectional completion dates.

The graph below indicates, how **tie** view the BSC reported progress in the Section between Haymarket and the Airport and **tie**'s own assessment of the progress made by BSC against the Post Mediation Programme (MOV 4) Prioritised Works Rev.**03A** dated 28-Jun-11.

Document Type: **Progress Report** Issue 1 Progress Meeting Date: Period 05

Page: 10

Issue:

This tie assessment suggests that BSC are currently approx. 3.0 weeks adrift of the Post Mediation Programme (MOV 4) Prioritised Works Rev.03A dated 28-Jun-11. BSC have stated they still expect to complete by the original programme dates.

There were no productive works executed On-street during the period following BSC'S decision to demobilise from active worksites at Lindsay Road and Tower Place bridge. Whilst it is noted that there are currently On-street auxiliary works taking place such as trial bore holes, tie do not have a baseline programme from which to assess progress. Works Off-street have continued in Section 2A at Haymarket Yards, and in a few discreet areas within Sections 5c and 6.

The total cumulative completion for Infraco Works (Rev.01 Contract Programme Scope) is 30.1% (between the Airport and Newhaven) at end of Period 05. A summary of progress on various project elements can be found below:

Utilities The % complete is a physical measure of the progress against the forecast final volume of diversions across the route. It does not take cognisance of cabling, testing and transfers from the Telecom Providers (BT etc.) - 50,000m of diversions; ~48,300m completed to date. - Airport - Haymarket complete - Haymarket – Newhaven complete save for: - Some telecoms cabling and transfers (due for completion Aug11) - Testing / commissioning / abandonments of transferred services (underway) - Baltic Street Diversions (1500m) - 250mm water main extension at the Depot is complete	97%
<u>Tram Project Ancillary Works</u> Equal weighting is applied to the physical progress % complete for all six work packages, irrespective of value.	100%

The cost, programme and risk information in this Period 05 report continues to be based upon an unapproved forecast on the information reported in May 2009. This will be updated once agreement is reached with BSC on a new revised programme.

A post mediation agreement has been reached between CEC/tie and BSC regarding the recommencement of particular priority works which commenced during Period 2 2011-12. Additionally, BSC had agreed to carry out remedial works on Princes Street and plans were being made to divert traffic from 2nd July 2011 to allow these works to commence. However, following consultation with stakeholders and Businesses these works have been postponed to September 2011.

Page: 12

Progress Report Issue 1 Period 05

The priority works areas are:

- Haymarket Yards
- A8 Underpass
- Depot Access Bridge
- Depot Building & External Trackworks
- Mini-test track between Depot & Gogarburn

Design

IFC Design

BSC submitted SDS V70 programme to tie on 09th May 2011. Although tie are aware that later versions of the SDS Design Programme are available, v70 is the last formal issue to tie.

tie have used the SDS v70 programme to update the live programme which has a progress date of 11 April 11.

v70 design approval count:

only	Numbers Required											Number		Number		Number
	V26	V31	V58	V59	V60	V61	V62	V63	V64	V66	V67	Granted	V68	Granted	V70	Granted
Prior Approvals	44	49	56	56	56	56	60	60	60	60	62	56	60	57	60	57
Technical Approvals	53	71	92	92	92	92	63	63	63	63	63	55	63	56	63	56
IFC	71	81	233	230	227	230	230	229	229*	234	238°	192	240	201	241	204

V70 data has been used to inform the programme updates.

- IFCs Phase 1a: 204 issued out of 241 (85%)
- 60 Prior Approvals are included in v70 57 of which have been granted those remaining include Canopy & Boundary Treatment at Edinburgh Airport and Roseburn Viaduct Value Engineering option
- 56 Technical Approvals out of 63 have been granted in V70
- Roads approvals One area remains outstanding from the V31 Technical Approval in Phase 1a (1C2- Picardy Place to St Andrew Square);

Design and consents reviews are being progressed as a post mediation escalated workstream.

Utility & Cabling Works

Utility work - The tender process for Utility work at Baltic street remains on hold until tie receive the required IFC drawings from SDS - which remain outstanding with no delivery schedule in place from SDS.

- Telecoms continue to progress their re-cabling activities on-street with works in St Andrews Square due to complete during Aug-11.
- Cabling in Torphichen St could be protected to allow tramworks to commence as crossings are perpendicular to Tram route.
- All Cabling between Haymarket Foot of the Walk due to complete during Aug-11.

Tramworks (INFRACO)

The progress achieved in Period 05 for INFRACO works was 0.6% against a plan of 0.0% as against the contractual Rev.1 programme all construction activities for both the On and Offstreet sections should now be complete with the route in total planned to be 100.0% complete.

There were no productive works executed On-street during the period following BSC'S decision to demobilise from active worksites at Lindsay Road and Tower Place bridge. Whilst it is noted that there are currently On-street auxiliary works taking place such as trial bore holes, **tie** do not have a baseline programme from which to assess progress Progress Off-street has continued in Section 2A at Haymarket Yards, and in a few discreet areas within Sections 5c and 6.

Section	Commentary
	JB McLean/Murrayfield Indoor Sports Club Installation of replacement flue completed 22/07/2011. Damp issue - site visit by a specialist waterproofing / 'tanking' company carried out during the period. Details of the proposed repair methodology awaited from BSC.
	Plots 96, 97 BSC commenced the alteration works on 25 July 2011. Plot 101/102 No works planned or carried out by BSC. Demolition of 101 is to be carried out and the area reinstated with black-top in accordance with the request of the landowner, Mr Kelly. Licence signed on 21/07/2011, copy issued to BSC 28/07/2011. Start date to be confirmed by BSC. Murrayfield Corridor Ground Improvements – INTC 625
Section 5b Balgreen Road to Edinburgh	Ground Investigation - BSC/SDS/GMEC meeting held on Tuesday 19/07/2011 to discuss the proposed technical solution for the ground improvement. Details awaited from BSC. No agreed programme for recommencing in this section
Park Central	
Section 5c Edinburgh Park Central to Gogarburn	Prioritised works programme now available for this area. Depot Access Bridge Opened for site access from 6 th August 2011 A8 underpass A8 Underpass phase. Traffic switch made 6 th August 2011. This involved re opening eastbound slip road and switching main traffic from westbound to eastbound dual carriageway. Phase 4 works due to complete for traffic switch October 2011. This will provide access to the critical Phase 3. Trackwork Mini Test Track: Depot Access Bridge to Gogarburn TS: Blinding concrete 80%. Track installation (Rheda Green) commenced in Period.
Section 6 Gogar Depot	Depot Building works: Tramwash installation commenced in Period. Depot Externals: Track installation substantially completed to Section 2, 3 and 4. Tamping machine due to commence 15 th August 2011. Concrete perimeter road substantially completed in Period. Virgin Media: IT connection programmed to be completed in Period.
Section 7a Gogarburn to Edinburgh Airport	EAL flooding: Residual issue of impact to Burnside Road closed in Period. EAL have agreed in principle to route of HV cable to IPR substation. BAA provided draft wayleave to SP in Period. IP Gas Main: Estimate received and confirmation to proceed issued by tie in Period. Building warrant submitted to CEC and to EAL for approval for Kiosk and Canopy. tie/CEC to agree revised licence with EAL ahead of BSC site start date of 5 th September 2011. HV Wayleave IPR substation: EAL have issued draft wayleave to SP for approval.

Page: 17

Progress Report Issue 1 Period 05

Progress Points to note in Period 05:

- Depot building near completion with Civil Contractor's work almost finalised.
- Depot Access Bridge completed to wearing course level. Now being used as main access to site
- A8 underpass progressing well with Traffic change over completed on the 7th August.
- Water of Leith sewer lining works commence in period
- Scottish Power have agreed solution to issue surrounding 132kv cable at Roseburn Viaduct
- Assembly street abandonment work progressing to revised programme.
- Edinburgh Gateway issues seem to be resolved allowing full design to commence after some lengthy backward and forward movements between designers

Issues in the Period

- Clarity required surrounding issues within section 1A where BSC have been "instructed" not to carry out any further works.
- Utility Conflicts within on street section of the works being highlighted in order to afford some time for all parties to participate in agreeing best solution for the Project. BSC'S input along with the designer and utilities is critical to this process.
- Still outstanding issues regarding Network Rail's construction health and safety plan. This in turn has an effect on the required track monitoring plan which could delay start planned for September in various areas
- Draw down agreement still to be finalised with BAA. Agreement in principle was reached with CEC/EAL on 17th August 2011 for a commercial settlement between the parties. This should enable the planned commencement access for the piling at the airport Tram Stop/retaining wall.

Tram Construction (Tramco)

The CAF contract programme is incorporated in the Master Tram project Programme. We receive electronic submission of the CAF programme to allow analysis of the programme.

Period 05 Summary - Tramco

No	Planned	Activities in current Period				
1	Fabrication of the trams	All 27 trams have been completed.				
2	Enhanced passenger information upgrade	Plan to fit additional latest equipment (if any enhancement is required) when trams arrive in Edinburgh.				
3	Review of Test Protocols and test results	ETL's testing & commissioning plan is now being finalise and integrated into the BSC test and commissioning plan, th first version of which has been reviewed and discussed wit BSC.				
4	Depot Equipment	CAF are continuing progress, delivery of the sand filling plant is scheduled for September 2011, Siemens have now completed installation of their plant with the exception of the Tram wash plant fitment which is currently underway.				
5	Finalisation of external branding	Application of final branding to be applied whilst trams are stored at the factory prior to shipping to Edinburgh.				
6	Tram O&M Manuals	Update (if required) after experience of the trams in the field.				
7	Key sub-contract placement	Collateral warranties – 3 signed warranties have been received, remaining continue to be progressed.				
8	Factory Based	All 27 trams have successfully completed factory testing to				

Progress Report Issue 1 Period 05

	Acceptance Testing complete	date. 100% of trams now completed and tested.
9	Testing regime	Preparations are being finalised for the testing in Edinburgh which is planned to start with static testing at the Depot commencing in October and dynamic testing between the Depot and Gogarburn commencing in December.
10	Programme progress	90% of scheduled activities completed.

Preparing for Operations

The Operational Readiness team are continuing to work closely with the **tie** and BSC programme teams to coordinate progress at the Depot, good progress in this area has been made. Work has now been started again in the control room after the successful Factory Acceptance Tests were completed at Siemens Ashby plant during July.

Overhead line equipment has now started to be installed in the Depot Workshop and the trackwork on the tram delivery road is completed as well as both shed aprons with the completed workshop tracks now connected to the stabling tracks. Siemens are now using a tamper to set the line and level of all of the trackwork.

Good progress is also being made with the Test track with the laying of sleepers and placement of rails between the Gogar Church area at Gogarburn to the Gogar Castle access road with the concrete slab well progressed between the Gogar Castle road and the East side of the Depot Access bridge.

The operations mobilisation supervisor and two of the secondees from Lothian Buses attended and participated in the Factory Acceptance Testing of the control room SCADA equipment in late July as part of their familiarisation process prior to starting the formal training programme. We are about to carryout induction training commencing the last week of August prior to the team attending tramway training at Nottingham tram system for a 4 week course in September. They will then be ready for the delivery of the trams to the Depot (planned October 2011) and the availability of the test track for testing.

A weekly commissioning and integration meeting is continuing to ensure that a coordinated and integrated approach is followed.

The monthly Operational Readiness Workshop meetings are working through the detail of the forthcoming tram delivery, testing, commissioning and mobilisation tasks identifying the facilities required for each activity.

The maintenance preparation and provision of documentation to support the completed systems and infrastructure assets continues to be developed with BSC maintenance representatives.

Support is being provided to the MOV5/Settlement discussions with a revised set of Employers Requirements to reflect the reduced scope and the novation back of CAF's Tram Supply and Tram Maintenance obligations.

Work continues with the preferred bidder for the supply of ticketing equipment for the tram system, to progress the preparation of the contract documentation. Further testing of the existing Lothian Buses back office is required to take place. We hope that this work will be undertaken in the coming period.

Regular meetings are taking place with Lothian Buses senior management to discuss the proposed transfer of ETL to Lothian Buses.

Progress Report Issue 1 Period 05

3 Headline cost report

3.1 Current Financial Year

	FY 11/12		FY 11/12		FY 11/12		COWD	Costs	Total

Demand on TS	7.409	21.033	-13.624	68.671	38.695	29.976	122.478	122.478	-0.000	446.193	53.807	500.000

See the Executive Summary Cost Report for an overview of the payments made this period.

The 'AFC' figure of £545m (table above) does not reflect an approved and reliable Anticipated Final Cost for the Edinburgh Tram Project. Rather, the forecast presented reflects our best current view of the spend profile of the funding currently available for the delivery of the entirety of phase 1a.

Given the continuing commercial uncertainties with the Infraco and continuing delays to the project it is considered unlikely that the full scope of Phase 1a will be completed within the available funding envelope of £545m. It is not however possible at the present time to accurately forecast a reliable outturn cost until the key commercial issues are resolved through the contractual and legal process. It should also be flagged that the profile of the forecast for 2011/12 is likely to differ significantly from the original cashflow forecast following the execution of an MOV4 prioritised works schedule.

COWD to date is £486.4m, with funding to date split to TS (£446.2m) and CEC (£40.2m).

Actual YTD P5 & forecast P6-13 FY11/12

£m	COWD to P5	Forecast P6-P13	FY 2011/12
Infrastructure and vehicles	70.5	45.0	115.4
Utilities diversions	0.0	-4.7	-4.7
Design	-0.1	0.8	0.8
Land and compensation	0.1	0.0	0.1
Resources and insurance & risk	4.4	17.5	21.9
Total Phase 1a	74.9	58.7	133.5

Period 5 (four week) COWD was £8.1m. The £8.1m can be split into the following constituent parts:

- £6.6m payments to the Infraco in line with MOV4 payment schedule
- £1.5m relating to Resources and Other Cost items

YTD 2011/12 COWD is £74.9m for P5.

The full-year 2011/12 outturn forecast is currently £133.5m. This is subject to revision dependent upon the final mediated settlement between the Infraco, CEC and **tie** Ltd.

Current Financial Year Profile Profile for FY2011/12

£m	Q1	Q2	Remaining	Total
	(p1-3)	(p4-6)	(p7-13)	FY11/12
Infrastructure and vehicles	53.9	26.0	35.5	115.4
Utilities diversions	0.0	0.0	-4.7	-4.7
Design	-0.1	0.1	0.8	0.8
Land and compensation	0.0	0.1	0.0	0.1
Resources and insurance	2.6	2.6	16.6	21.8
Base costs	56.5	28.7	48.2	133.4
Risk allowance	0.0	0.0	0.1	0.1
Total Tram	56.5	28.7	48.3	133.5

 According to the current spend profile for 2011/12 we anticipate that TS share of spend will be £122.5m.

Phase 1a Profiling

£m	Cum	Actual	Actual	Actual	FY	
	FY07/08	08/09	09/10	10/11	11/12	AFC
Infrastructure and vehicles	30.6	45.2	83.3	38.9	115.4	313.3
Utilities diversions	18.4	33.4	10.6	8.0	-4.7	65.7
Design	24.4	4.7	2.1	1.7	0.8	33.7
Land and compensation	16.8	1.7	1.6	0.1	0.1	20.3
Resources and insurance	42.9	16.0	16.2	14.9	21.8	111.7
Base costs (inc 1b)	133.1	101.0	113.8	63.7	133.4	544.9
Risk Allowance	0.0	0.0	0.0	0.0	0.1	0.1
Total	133.1	101.0	113.8	63.7	133.5	545.0

Note: Base costs include £6.2m for ph 1b.

Per the note in 3.1 the 'AFC' figure of £545m does not reflect an approved and reliable Anticipated Final Cost for the Edinburgh Tram Project, but points to 'our best view' of the spend profile of the funding currently made available for the delivery of the entirety of phase 1a.

The TEL board have approved a risk allowance within the current funding arrangements of up to £63.3m, which takes the current agreed budget up to £545.0m.

4 Time schedule report

4.1 Report against key milestones

The table below reflects the milestones set out against the Rev1 programme. This will be rebaselined when a new programme is agreed as part of the Settlement Agreement.

Milestones	Baseline programme date	Actual / current forecast date tie live prgm
Approval of DFBC by CEC	21 Dec 06A	21 Dec 06A
MUDFA – commencement of utility diversions	02 Apr 07A	02 Apr 07A
TRO process commences	14Dec07A	10-Dec-07A
Approval of FBC by TS – approval and funding for	09 Jan 08	Dec 07A
INFRACO / Tramco		
Princes Street closed	03-Feb-09	22-Feb-09A
Tramco / INFRACO – award following CEC / TS	28 Jan 08	14 May 08A
approval and cooling off period and SDS novation.		
Construction commences	14-Apr-08	14-May-08A
First track installation commences – on street	03-Nov-08	Jun 2009A
Carrick Knowe Bridge commences	21-Aug-08	19-Aug-08A
A8 underpass commences	08-Aug-08	28-Aug-08A
Haymarket viaduct commences	08-May-08	01-Sep-08A
Edinburgh Park viaduct commences	06-Aug-08	01-Sep-08A
Tram mock-up delivered	Oct 2008	Nov 2008A
Demolition of Wanderers clubhouse	25-Aug-08	05-Jan-10A
Edinburgh Park viaduct complete	24-May-09	Sep-11
Princes Street re-opened	01-Aug-09	29-Nov-09A
NR immunisation complete	Nov 2009	Sep-10A
Utilities works complete (including telecoms)	Nov 2008	Nov-11

^{*} CAF revised programme to reflect availability of Depot for Tram delivery

Guidance for Completion: Legend for colouring of Actual / forecast date text

Green: Actual / forecast date is ahead or in line with baseline Yellow: Slight slippage - readily recoverable with action. Significant slippage but expect recovery can be achieved Pink Red: Notable / significant slippage - difficult to recover, even with action.

12-Week Look-Ahead

Until a revised programme is agreed and is in place, the forecast for the next 12 weeks is now generated from the Post Mediation Programme Rev.3A including latest updated information from both BSC and tie Project Managers. Note that due to the uncertainty surrounding the Onstreet section of the Infraco works, and the recent demobilisation from site by BSC that these works have been removed from the 12 week forecast. Similarly, as BSC have now demobilised worksites where there is an outstanding disagreement regarding an estimate, these works have also been removed from the table.

Milestones	Actual / current forecast date
2A – Road and track works Haymarket Yards	15-Aug-11C
