### 4 Week Period Reporting Pack 10/11

Project Title: Edinburgh Tram Project

Reporting Period: Period 10 – 2010/11

# **Transport Scotland Project Manager:**John Ramsay

**Progress Meeting Date: 12 January 2011** 

Report authorised by: Steven Bell Project Director
Signature:
Date: 7/1/11

For and on behalf of tie Limited

Report approved by:	Dave Anderson Director of City Development
Signature	
Date: 13 1 4	

For and on behalf of the City of Edinburgh Council

I can confirm that the Council has expenditure controls in place and that all resources are used economically, effectively and efficiently within the eligible capital costs of the grant agreement.

Appendix 'A' Detailed cost report

Progress Report Issue 1 Period 10

### 1 Executive Summary

On Friday 1<sup>st</sup> October 2010, BSC began to demobilise and cease works on certain sites across the route (over Sections 2A, 5A, 5B and 5C), this reflecting an escalation in the contractual dispute between BSC and tie. tie continue to undertake site monitoring on both active and inactive worksites.

### **Progress**

The progress achieved in Period 10 for INFRACO works was 0.5% against a plan of 0.4% although it should be noted that against the contractual Rev.1 programme Off-street construction should now be complete with the route in total planned to be 99.5% complete.

BSC are undertaking very limited on-street works in the Leith Docks area at present, with only Lindsay Road worksite remaining active post 19<sup>th</sup> November although there was no progress reported during period 10. The period progress has been achieved only at the Depot Access Bridge and the Depot area itself.

The total cumulative completion for Infraco Works is 27.9% at end of Period 10. A summary of progress on various project elements is summarised below:

#### Progress Comparison Period 9 vs Period 10 - Infraco

Period	Cumulative Progress (Actual)	Rev 1 Target
2010/11 Period 9	27.4%	99.0%
2010/11 Period 10	27.9%	99.5%

BSC continue to report progress against the agreed Rev.1 contractual programme. This shows for progress up to and including 26th November 2010 an OFRS date of 23 December 2013 against the contractual Rev.1 programme date of 06 Sep 11.

It should be noted that as a result of the current rates of BSC progress and cessation of works across the site, that it is likely that slippage will continue to be report on a period by period basis, until such time as a rebaselined programme can be agreed with the Contractor.

### **Dispute Resolution**

Following a Full Council meeting in November and a Tram Project Board in December 2010, **tie** has commenced discussions with BSC in relation to mediation outwith the Infraco Contract in an attempt to reach a solution to the differences between **tie** and BSC.

Meanwhile, tie's contractually assertive management of the contract continues. Over the period no new items have been referred to DRP.

In total, 25 items have now been referred to the formal dispute resolution agreement process – 16 by **tie** and 9 by Infraco. In total 7 have been resolved through negotiation, 2 through external mediation, 11 were decided through adjudication, and 5 still remain to be resolved. It is important to note that overall, the application of DRP to disputed matters has reduced BSC's claims for additional payment from £23.9m to £11.2m in relation to those DRPs which have actually reached a financial settlement.

Progress Report Issue 1 Period 10

During the period, the sub-contractor DRP adjudication decision was received. This decision agreed with **tie**'s interpretation of the relevant clause of the contract and that tie had not acted unreasonably in not approving sub-contracts which all consortium members were not party to.

**tie** has continued with the contractually assertive approach to management of the contract. From Period 7 this has taken the cumulative issue of Contract Notices to: 10 Remedial Termination Notices (RTN's) and 3 Underperformance Warning Notices (UWN's) - Rectification plans have been received for 4 RTN's due from 7 by the end of Period 9. All 4 have been rejected by **tie** as they do not address the defaults identified with satisfactory proposals.

#### Design

There has been no further design submission from BSC during period 10. v64 was submitted to tie on 09 November 10 with a progress date of 25 October 10. There are 26 IFC's with a slippage of 28 Calendar days or more in the period

The final scheduled IFC remains as "Connection to Path/Ramp & Ocean Drive" and is now forecast for delivery 17 March 2011.

Design approvals status in Period 10 is summarised below:

only	Numbers Required									Number
	V26	V26 V31 V58 V59 V60 V61 V62 V63 V64							V64	Granted
Prior Approvals	44	49	56	56	56	56	60	60	60	54
Technical Approvals	53	71	92	92	92	92	63	63	63	55
FC	71	81	233	230	227	230	230	229	229*	126

Reasons for design slippage are being reviewed and recorded monthly at the design taskforce meeting, which is focused on resolving the outstanding design issues. **tie** is identifying and implementing opportunities to mitigate the impacts of this slippage. It should be noted that this is a consortium issue to manage, and **tie** will provide support in this respect. However, **tie** is testing through audit the management of SDS by BSC and compiling evidence in this regard.

Design performance by Infraco and their designer is the subject of the RTN's mentioned in the section above and is being vigorously pursued through the Design Task Force sessions held weekly with BSC.

### **Utility & Cabling Works**

The remaining on-street Utility, remedial & snagging works are under programme development by **tie** and are due to recommence during January 2011.

### Tramworks (INFRACO)

INFRACO progress is primarily focussed on the off-street section between Haymarket and the Airport. Progress in Period 10 is summarised as follows:

Progress Report Issue 1 Period 10

Period 10 2010-11	Pe	riod	Delta	Cumulative		Delta	Project	
INFRACO PERIOD 10 PROGRESS (Contract Rev.01 Programme)	Plan	Actual		Plan	Actual		Wtg	
Section 1a Newhaven to Foot of the Walk	0.0%	0.0%	0.0%	99.3%	8.5%	-90.7%	16.2%	
Section 1b Foot of the Walk to McDonald Road	0.0%	0.0%	0.0%	100.0%	1.3%	-98.7%	7.4%	
Section 1c McDonald Road to Princes Street West	0.9%	0.0%	-0.9%	96.0%	0.0%	-96.0%	10.8%	
Section 1d Princes Street West to Haymarket	0.0%	0.0%	0.0%	100.0%	42.1%	-57.9%	7.6%	
Combined Sections 1A-1B-1C-1D (On-Street) Newhaven Road to Haymarket	1.1%	0.0%	-1.1%	98.7%	11.2%	-87.5%	42.0%	
Section 2 Haymarket to Roseburn Junction	0.0%	0.0%	0.0%	100.0%	35.1%	-64.9%	4.2%	
Section 5a Roseburn Junction to Balgreen Road	0.0%	0.0%	0.0%	100.0%	10.0%	-90.0%	13.9%	
Section 5b Balgreen Road to Edinburgh Park Central	0.0%	0.0%	0.0%	100.0%	43.4%	-56.6%	13.2%	
Section 5c Edinburgh Park Central to Gogarburn	0.0%	0.2%	0.2%	100.0%	25.0%	-75.0%	7.2%	
Section 6 Gogar Depot	0.0%	4.1%	4.1%	100.0%	77.2%	22.8%	11.9%	
Section 7a Gogarburn to Edinburgh Airport	0.0%	0.0%	0.0%	100.0%	47.2%	-52.8%	7.6%	
Combined Sections 2A-5A-5B-5C-6A-7A (Off-Street) Haymarket to Edinburgh Airport	0.0%	0.9%	0.9%	100.0%	39.9%	-60.1%	58.0%	
FULL ROUTE PHASE 1A NEWHAVEN ROAD TO EDINBURGH AIRPORT	0.4%	0.5%	0.1%	99.5%	27.9%	-71.6%	100.0%	

### Other Progress Points to note in Period 10:

- Tower Place bridge re-opened to the public on 19<sup>th</sup> Nov to accommodate Ocean Terminal Christmas Shopping
- Depot Access Bridge is continuing to programme
- The Gogar Tram Depot M&E systems are being tested and commissioned using the utilities connections.
- It is expected that the depot plant and equipment for maintaining the trams will start to be installed in mid-January 2011.
- Good progress continues to be made with fitting out of equipment in the HV substation at the depot.

### Issues in the Period

- BSC have ceased works in all areas with the exception of Lindsay Road RWs, Depot Access Bridge, drainage in Section 7 and some M+E works in Depot due to alleged items relating to changes. tie disputes this and matters are being progressed through the dispute resolution process in a number of locations.
- Issue surrounding flood reports and requirements to satisfy 3<sup>rd</sup> Party agreements with BAA are causing problems with the design of the airport retaining walls. An alternative design is being pursued.
- Track laying at the depot is going very slowly, and this is delaying the delivery of the trams to the facility. Several issues have been highlighted that could result in rework being required.

#### **TRAMCO**

### Period 10 Summary - Tramco

No	Planned	Activities in current Period
1	Fabrication of the trams	Fabrication and primer painting is completed on all the
		body-shells for all twenty seven trams. Equipment fit-out for
		the remaining trams 22 to 26 is continuing in the assembly
		hall. The first 19 trams are completed and tram 21 is about
	5	to start factory acceptance testing.

2	Enhanced passenger information upgrade	Plan still to fit final equipment when trams arrive in Edinburgh.
3	Review of Test Protocols and test results	CAF have completed final internal tests to verify and calibrate computer design tools using Tram 251 at Wildenrath on the 12 <sup>th</sup> October 2010, final report awaited.
4	Depot Equipment	CAF are continuing progress, delivery schedule under discussion in conjunction with civil works programme for depot mid-January 2011 is the current start date for this.
5	Finalisation of external branding	Discussions with CAF on application of the final branding have started and any commercial issues will be flagged in due course. We intend to use the fact that they are stored at the factory to undertake this work prior to shipping to Edinburgh.
6	Preliminary Tram O&M Manuals	Revised manuals received and reviewed. ROR sent back and next update due mid 2011 after experience on site with the trams.
7	Key sub-contract placement	Collateral warranties – 3 signed warranties have been received, remaining continue to be progressed.
8	Factory Based Acceptance Testing complete	First 20 trams have successfully completed factory testing to date. 74% of trams now completed and tested.
9	Testing regime	CAF have revised the Delivery & commissioning regime for the trams to reflect the requirement to store Trams pre delivery to Depot. All Trams will be prepared after storage, undertake Dynamic testing and commissioning. 1 <sup>st</sup> tram due for starting commissioning mid-March 11- last tram mid-May 12.
10	Programme progress	86% of scheduled activities completed

### **Preparing for Operations**

The procurement of the ticketing equipment for the tram system, to integrate with the existing Lothian Buses ticketing system has progressed to the stage where the final ITT has been issued and two tenders have been returned on the 16th December which have been evaluated. We expect to select a preferred bidder during January and finalise a contract containing client break option clauses at suitable points in the programme.

The maintenance of completed infrastructure assets continues to be developed with BSC maintenance representatives, notably the tram vehicle O&M and Operator Manuals and the asset management system for the tram vehicles.

Terms and conditions for operations staff have been drafted in partnership with Lothian Buses and the various job descriptions have been graded using the Hay Evaluation process.

Snagging activities have been carried out on the office and control room accommodation at the Gogar tram depot.

### **Edinburgh Gateway**

Progress on the Edinburgh Gateway Project in Period 10 2010/11 is summarised as follows:

Progress Report Issue 1 Period 10

- The revised Prior Approval, due to be submitted to CEC in the Period, was delayed following discussion with NR regarding the final landscaping details. Work on the detailed design to achieve Technical Approval continued with AIP issued to CEC on 10<sup>th</sup> December 2010. Coordination meetings continued with NR to resolve issues associated with EMC, Section 21 agreement and approval of anchor system for retaining wall ahead of IFEA submission to CEC.
- tie requested an Estimate from BSC for Edinburgh Gateway construction works as a Change under the Infraco Contract including a number of programme matters that tie indicated Infraco should assume when completing their Estimate. These programme issues will require adjustment following resolution of the Prior and Technical Approval issues. Further tie letter reference INF CORR 7005 of 17<sup>th</sup> December 2010 requested confirmation from BSC regarding date for receipt of Estimate.
- Legal agreements: tie have requested draft wording from SW regarding Section 21 Agreement for build over of retaining wall. This was requested on 18<sup>th</sup> November 2010. Meeting arranged with SW and NR for 13<sup>th</sup> January 2011 to co-ordinate approach. Progress on other legal agreements will be reviewed in the new year once clarity on wider ETN Project timescales.
- A high level Principals meeting on Edinburgh Gateway between Transport Scotland, Network Rail, City of Edinburgh Council and tie, took place on 22 December 2010. Meeting agreed to focus teams on concluding redesign.

#### Cost

The 'AFC' (£545m) in this report does not reflect an approved and reliable Anticipated Final Cost for the Edinburgh Tram Project. Rather, the forecast presented reflects the best view of the spend profile of the funding currently available for the delivery of phase 1a. Given the commercial uncertainties with Infraco and continuing delays to the project it is now considered unlikely that the full scope of Phase 1a will be completed within the available funding envelope of £545m.

Until the key issues are resolved through the contractual and legal process, it will not be possible to accurately forecast a revised budget outturn.

Key cost related items to note in Period 10 are:

- COWD to date is £402.4m, with funding to date split to TS (£369.2m) and CEC (£33.2m).
- The budget for ETP in 2010/11, established in April 2010 is £142.2m (£153.3m 09/10).
   Transport Scotland funding for 2010/11 is £130.5m for ETP, with £11.7m funding available from CEC.
- The original TS share of the budget (£130.5m) has been reduced to a forecast of £64.3m.
- Key sensitivities to the reforecast are identified in the main report.

tie presented an updated forecast for 2010/11 on Tuesday 19<sup>th</sup> October with Sharon Fairweather & John Ramsay attending on behalf of TS. A follow up meeting took place on 4<sup>th</sup> November where spend ranges and sensitivities for 2010/11 & 2011/12 were presented by tie/CEC to TS. A further revision of the current year forecast took place in Period 10, and is within the range presented to TS on 4<sup>th</sup> November.

Progress Report Issue 1 Period 10

### Actual YTD P10 & forecast P11-P13 FY10/11

	2010/11	Forecast	Forecast
£m	to P9	P10-P13,10/11	FY10/11
Infrastructure and vehicles	37.9	11.1	48.9
Utilities diversions	4.4	0.0	4.4
Design	1.4	0.5	1.9
Land and compensation	0.3	0.0	0.3
Resources and insurance	10.6	3.9	14.5
Base costs	54.6	15.5	70.1
Risk allowance	0.0	0.0	0.0
Total Phase 1a	54.6	15.5	70.1

### ETP COWD in FY10/11 to Period 10 is £54.6m (P9 - £50.8m)

As previously reported and agreed with CEC and TS, initial milestones under the Infraco and Tramco contracts in the aggregate amount of £14.3m, in respect of advance material purchases, have been classified as prepayments. These will be reclassified as expenditure against funding in the periods when the related materials are delivered to site and incorporated in the works. The release will occur on the achievement of trackwork and structures milestones in 2010/11 and future years.

Progress Report Issue 1 Period 10

### 2 Progress

On Friday 1<sup>st</sup> October 2010, BSC began to demobilise and cease works on certain sites across the route (over Sections 2A, 5A, 5B and 5C), this reflecting an escalation in the contractual dispute between BSC and tie. In response to this action, tie has entered into formal correspondence with the contractor regarding contractual obligations. tie continue to undertake site monitoring on both active and inactive worksites.

The progress achieved in Period 10 for INFRACO works was 0.5% against a plan of 0.4% although it should be noted that against the contractual Rev.1 programme Off-street construction should now be complete with the route in total planned to be 99.5% complete.

Progress in the period was to a certain extent hampered by the adverse weather conditions experienced during December 2010.

BSC are undertaking very limited on-street works in the Leith Docks area at present, with only Lindsay Road worksite remaining active post 19<sup>th</sup> November although there was no progress reported during period 10. The period progress has been achieved only at the Depot Access Bridge and the Depot area itself.

The total cumulative completion for Infraco Works is 27.9% at end of Period 10. A summary of progress on various project elements is summarised below:

<u>Utilities</u> The % complete is a physical measure of the progress against the forecast final volume of diversions across the route. It does not take cognisance of cabling,					
testing and transfers from the Telecom Providers (BT etc.)	nee or easing,				
<ul> <li>~ 50,000m of diversions; ~48,300m completed to date.</li> <li>Airport - Haymarket complete</li> <li>Haymarket - Newhaven complete save for:         <ul> <li>Some telecoms cabling and transfers</li> <li>Testing / commissioning / abandonments of transfe</li> <li>Baltic Street Diversions (1500m)</li> </ul> </li> </ul>	rred ser <b>v</b> ices				
Tram Project Ancillary Works  Equal weighting is applied to the physical progress % complete packages, irrespective of value.	for all six work	100%			
<ul><li>Ingliston Park &amp; Ride Phase 2</li></ul>	100%				
<ul> <li>complete</li> <li>Burnside Road Bridge relocation at Edinburgh Airport complete</li> </ul>	100%				
<ul> <li>Murrayfield Training Pitches relocation complete</li> </ul>	100%				
<ul> <li>Murrayfield Wanderers Club House complete</li> </ul>	100%				
<ul> <li>Murrayfield Turnstiles relocation complete</li> </ul>	100%				
<ul> <li>South Gyle sewer tunnel: (Site Contract works 100% complete</li> </ul>	eted) 100%				
Additional works -TM switchover completed November 10					

Delivery Organisation Period Progress Report

Document Type: Issue: Progress Meeting Date:

Page: 10

**Progress Report** Issue 1 Period 10

:	On programme	mpleted and factory tested with 8 under eated to secure compound in Broxburn	manufacture.	
The % Hayma more g As has is exc	arket to Edinbur granular view. s been reported, cluded in the s	et physical measure of the proportion of gh Airport. Some typical elements of the on street work is subject to significal ummary table. Current % complete tion works is ~11%.	sections provide a ant dispute and this	39%
Depot •	TEL Occupatio	n to be confirmed in Period 11 Phase 1 & 2 under construction,	~77% complete ompletion Feb '11	
Structu • •	Bridges Culverts complete	8 out of 16 under construction 3 out of 3 completed 6 out of 17 under construction	~44% complete 100% ~ 24% complete	

The cost, programme and risk information in this Period 10 report continues to be based upon an unapproved forecast on the information reported in May 2009. This will be updated once agreement is reached with BSC on a new revised programme.

BSC continue to report progress against the agreed Rev.1 contractual programme. This shows for progress up to and including 26th November 2010 an OFRS date of 23 December 2013 against the contractual Rev.1 programme date of 06 Sep 11. (Note that period 10 information is not available from BSC).

It should be noted that as a result of the current rates of BSC progress and cessation of works across the site, that it is likely that slippage will continue to be reported on a period by period basis, until such time as a re-baselined programme can be agreed with the Contractor.

tie continue to monitor progress against their "live" programme which is based on the contractual Rev.1 Programme logic, although progress recorded against this programme considers the currently known work-scopes including some changes. This indicates a Sectional D completion of 25-Jun-13, which is a 10 calendar day slippage from Period 9. Note that the live programme does not make any assumptions regarding BSC restarting on site.

Overall the relationship with BSC is suffering in a number of key areas and progress remains behind the master programme:

Progress Report Issue 1 Period 10

- Contractual obligations not met to allow works to commence on street;
- Design slippage since novation of design to INFRACO (now recorded in v64 of the design programme);
- Consortium integrated design programme, assured and validation;
- Finalisation of the agreement of change delaying the commencement of work even though instructed to progress by tie;
- Remaining small pockets of incomplete utility diversions in the On-Street sections;
- Slow mobilisation of INFRACO, including lack of formal sub-contracts being in place;

Section	Description	Contract Programme Rev.01	BSC Forecast (P09) Rev.01	BSC Forecast (P10) Rev.01	BSC Movement in Period Cal Days (c) – (b)	tie Live Forecast (P09) Rev.01**	tie Live Forecas t (P10) Rev.01**	tie Movement in Period Cal Days (f) – (e)
		(a)	(b)	(c)	(d)	(e)	(f)	(g)
Section A	Depot completion	01-Jun-10	30-Aug-11	No info	N/A	19-Aug- 11	09- Sep 11	-21
Section B*	Test Track Available	01-Jul-10	25-Sep-12	Noinfo	N/A	12-Apr- 12	03- May-12	-21
Section C	All Phase 1a Construction complete	10-Mar-11	26-Jun-13	No info	N/A	1 <b>7</b> -Dec- 12	27- Dec-12	-10
Section D	Open for Revenue Service	06-Sep-11	23-Dec-13	No info	N/A	15-Jun- 13	25-Jun- 13	-10

<sup>\*</sup>The interpretation is that Sectional Completion "B" means that Test Track is available for Tram movements.

### **Contractual Strategy & Dispute Resolution**

### **Dispute Resolution (Infraco)**

Following a Full Council meeting in November and a Tram Project Board in December, **tie** has commenced discussions with BSC in relation to mediation outwith the Infraco Contract in an attempt to reach a solution to the differences between **tie** and BSC.

Meanwhile, tie's contractually assertive management of the contract continues. Over the period no new items have been referred to DRP.

In total, 25 items have now been referred to the formal dispute resolution agreement process – 16 by **tie** and 9 by Infraco. In total 7 have been resolved through negotiation, 2 through external mediation, 11 were decided through adjudication, and 5 still remain to be resolved. It is important to note that overall, the application of DRP to disputed matters has reduced BSC's claims for additional payment from £23.9m to £11.2m in relation to those DRPs which have actually reached a financial settlement.

During the period, the sub-contractor DRP adjudication decision was received. This decision agreed with tie's interpretation of the relevant clause of the contract and that tie had not acted unreasonably in not approving sub-contracts which all consortium members were not party to.

<sup>\*\*</sup> v64 information used.

Launched by BSC

Delivery Organisation Period Progress Report

DRP No	Subject	Nature of Dispute	Launched or planned	PD <b>M</b> tg	Position Papers	CEO Meeting	Referral	Decision

	South Gyle Access Bridge	Costs	7	7	V	13/1/11		
Launche	Bankhead Drive retaining wall	Costs	٧	1	٧	13/1/11		

A strategic review of commercial and contractual options continues and is reported to the Tram Project Board and Transport Scotland each period.

tie has continued with the contractually assertive approach to management of the contract. From Period 7 this has taken the cumulative issue of Contract Notices to: 10 Remedial Termination Notices (RTN's) and 3 Underperformance Warning Notices (UWN's) - Rectification plans have been received for 4 RTN's due from 7 by the end of Period 9. All 4 have been rejected by tie as they do not address the defaults identified with satisfactory proposals.

Progress Report Issue 1 Period 10

### Design

### **IFC Design**

There has been no further design submission from BSC during period 10. v64 was submitted to tie on 09 November 10 with a progress date of 25 October 10. There are 26 IFC's with a slippage of 28 Calendar days or more in the period

The final scheduled IFC remains as "Connection to Path/Ramp & Ocean Drive" and is now forecast for delivery 17 March 2011.

Design approvals status in Period 10 is summarised below:

only	Numbers Required									Number
	V26	V31	V58	V59	V60	V61	V62	V63	V64	Granted
Prior Approvals	44	49	56	56	56	56	60	60	60	54
Technical Approvals	53	71	92	92	92	92	63	63	63	55
FC	71	81	233	230	227	230	230	229	229*	186

v64 data has been used to inform the programme updates. tie have included these into the live programme.

- IFCs Phase 1a: 186 issued out of 229 (83%)
- 60 Prior Approvals are included in V64 54 of which have been granted those remaining include the Edinburgh Gateway & Canopy & Boundary Treatment at Airport Kiosk (90%)
- 55 Technical Approvals out of 63 have been granted in V64 (93%)
- Roads approvals One area remains outstanding from the V31 Technical Approval in Phase 1a (1C2- Picardy Place to St Andrew Square);
- Scottish Water has sent formal acceptances to BSC for all sections with the exception of 1C2 (Picardy Place to St Andrew Square) & 1C1 (McDonald Rd to Picardy Place).
- Sections 1A1, 1A2, 1A4, 1B, 1D, 5A, 5B, 5C & 6 close reports have been signed off by CEC, subject to BSC concluding any concessions included in the reports during construction. CEC are reviewing all other sections based on the prioritisation list provided by BSC.

Reasons for design slippage are being reviewed and recorded monthly at the design taskforce meeting, which is focused on resolving the outstanding design issues. **tie** is identifying and implementing opportunities to mitigate the impacts of this slippage. It should be noted that this is a consortium issue to manage, and **tie** will provide support in this respect.

To date 120 out of 969 informatives have been closed out and agreement in principle has been reached on a further 372. Further workshops are planned for Period 10.

tie has implemented an extensive programme of site based monitoring to validate & verify the installation of works in line with an integrated design assured construction.

Design performance by Infraco and their designer is the subject of the RTN's mentioned in the section above and is being vigorously pursued through the Design Task Force sessions held weekly with BSC.

The Technical Support Services Contractor (TSS) have completed a design status review, and the results of this assessment indicate that the design is around 90% complete (excluding as builts).

Progress Report Issue 1 Period 10

### **Utility & Cabling Works**

Utility work - minimal work occurred during the period due to the commencement of the City Centre Embargo on 27/11/10.

The remaining on-street Utility, remedial & snagging works are under programme development by **tie** and are due to recommence during January 2011.

The tender process for Utility work at Baltic street remains on hold until **tie** receive the required IFC drawings from SDS - which remain outstanding with no delivery schedule in place from SDS.

Telecoms continued to progress their re-cabling activities on-street, with planned re-start for early 2011 -following the Embargo - in St Andrews Square & York Place. Cabling continued in Torphichen St has outages booked for Jan 11.Cabling in this area could be protected during tramworks as crossings are perpendicular to Tram route.

The completion of BT Cabling on the northbound carriageway between MacDonald Rd – Jane St is compounded by delays to the duct work at York Place; however the Southbound carriageway is available to BSC.

### **Tramworks (INFRACO)**

The progress achieved in Period 10 for INFRACO works was 0.5% against a plan of 0.4% although it should be noted that against the contractual Rev.1 programme Off-street construction should now be complete with the route in total planned to be 99.5% complete.

BSC are undertaking very limited on-street works in the Leith Docks area at present, with only Lindsay Road worksite remaining active post 19<sup>th</sup> November although there was no progress reported during period 10. The period progress has been achieved only at the Depot Access bridge and the Depot area itself.

Progress continues to be monitored against the Revision 1 programme. The summary milestones against the agreed INFRACO contract and the short term Rev 1 programme milestones are shown in the table below.

0.0	Perio	d 09	Cumulative (Achieved to date)	Contract
Milestone	Planned	Actual	Actual	Planned to P09
Prelims	0	0	69	77
Construction	3	1	168	1136

### **Contract Milestones**

Works are currently not being carried out in line with the original Contract Programme and subsequently cannot be achieved as originally forecast.

#### **Prelim Milestones**

Prelim Milestones are no longer being forecast as BSC are not applying for these milestones in accordance with the Infraco Contract. It is also the case that a number of BSC's key subcontractors have not commenced in certain areas of the site therefore the milestones are not being achieved in full at this stage.

Section	Commentary
Section 1a Newhaven to Foot of the Walk	No agreed programme for recommencing main works in this section  No works progressed on Lindsay Road RWs due to adverse weather in final part of period.  Tower Bridge – No works carried out from 19/11/10 as Bridge re-opened, as per Forth Ports Licence.
Section 1b Foot of the Walk to McDonald Road	No agreed programme for recommencing in this section
Section 1c McDonald Road to Princes Street West	No agreed programme for recommencing in this section
Section 1d Princes Street West to Haymarket	No agreed programme for recommencing in this section
Section 2 Haymarket to Roseburn Junction	Haymarket Viaduct  There have been no productive works in this section since BSC cleared site on 1st October 10. Attendance on site continued until 7th October 10 to ensure the site was safe. Scottish Power worked adjacent to the BSC site from 1st to 3rd November 10 to repair a fault on a Pilot cable. This was not directly related to the Tram works however there were issues with the fence line being removed without permission.  Haymarket Yards  There have been no productive works in this section by BSC since they cleared site on 1st October 10. Attendance on site continued until 7th October 10 to ensure the site was safe. SGN commenced laying the temporary gas main on 28th September 10 however had to stop due to the lack of BSC presence on 1st October 10.

Delivery Organisation Period Progress Report

Document Type: Issue: Progress Meeting Date: Page: 18

Section	Commentary
Section 5a Roseburn Junction to Balgreen Road	Temporary & permanent works re-design along with commercial resolution is delaying various structures.  All required consents in place for track installation.
	Russell Road Bridge
	No works carried out during the period. Temporary works design for the soil nailing has been signed off by Network Rail, as well as WPP with no qualifications. Scheme for protection of the 24" gas main during the soil nail works submitted to SGN by BSC and is agreed. Details of protection to the gas main during the piling works waited from BSC. Road /Footpath/Cycleway closure was planned for 04/10/10, however this remains on hold and the signs removed.
	Russell Road Retaining Wall W4
	No piling work carried out during the period. No work carried out by Expanded during the period. The proposal to install an additional barrier to ensure Scotrail move into the new car park has been rejected by <b>tie</b> and Scotrail to be advised in writing. Pile caps for units 1-9 300mm out with the LOD – BSC/SDS to resolve.
	W18 - Murrayfield Tram Stop RW
	BSC claim Plot 101 is within the LOD and clashes with the foundations of <b>W</b> 18 R <b>W</b> . <b>tie</b> has received the structural engineers report for review.
	W8 – Baird Drive RW
	Site clearance work stopped and site cabins removed week commencing 1 <sup>st</sup> November. Form C for works was signed off by Network Rail w/e 08/10/10 with the condition that the track monitoring action plan was to be agreed.
Section 5b Balgreen Road to Edinburgh Park Central	Temporary & permanent works re-design along with commercial resolution delaying various structures.
	Balgreen Road to Carrick Knowe Bridge
	No work in the period.
	Carrick Knowe Bridge
	BSC informed by tie that SGA Sewer diversion is completed and site available 04-11-10. Design/ Level issue still to be sorted by BSC, Expanded will not be returning to complete until levels are resolved. No other works have been carried out during this period.
	Edinburgh Park Bridge North Ramp to Edinburgh Park Central
	There has been no work carried out in this section during this period. The route was to be used for the access to Section 5C earthworks, however, there is no resolution to the OLE base conflict with the coarse material installed by BSC to replace the organic material.
	Bankhead Drive Ch 522850 to 523500
	There has not been any works in this section during the period. BSC submitted WAC test results however the information was incomplete and insufficient, therefore returned.

Delivery Organisation Period Progress Report

Document Type: Issue: Progress Meeting Date: Page: 19

Section	Commentary
	Edinburgh Park Bridge
	No works carried out during the period. Issues with the DKE/OLE plinths/Robust kerbs still not resolved by BSC. Colour of cladding at the north approach ramp also not resolved by BSC.
	Busgate
	Work on the site was stopped by BSC on 8 <sup>th</sup> October 10 due to the outstanding Change issues affecting drainage, HRL, earthworks and the Tram Halt.
	There are a number of technical issues that have been ongoing for some time affecting the site and urgently require BSC/SDS solutions including; OLE clash with an existing (known) sewer, drainage conflict with SP insurance ducts, trackform drainage review/re-design and CEC approval of the latest street lighting design. A potential clash between the existing SGN IP gas main and one of the OLE bases has been reported and is being investigated.
Section 5c Edinburgh Park Central to Gogarburn	Section 5C Edinburgh Park Central to Gyle Tram Stop (Inclusive)
	The section is broken down into a number of areas due to the issues associated with each.
	CH 530 450 to 600 - Earthwork replacement was completed by 27/09/10 and the site cleared. Further works will not be progressed by BSC until ongoing Change issues are resolved.
	CH 524 490 to 530 420 — BSC replaced the pedestrian footpath with a concrete slab on 9 <sup>th</sup> October 10 to enable site vehicles to cross for the earthworks. BSC carried out trial holes on 11 <sup>th</sup> October 10 and highlighted the potential problem with the existing utilities being within the depth for replacement of soft material or requiring protection during the earthworks. The top soil strip was carried out between 12 <sup>th</sup> and 14 <sup>th</sup> October 10 and no progress has been made since. No further work will be carried out by BSC until a Change has been issued.
	CH 524 490 to 524 555 – there is currently no technical change to the earthworks in this section. The 1130mm dig and replace affects from the start of 5C. The area up to 524 490 requires only 200mm capping and 150mm starter layer. tie has issued a letter issued to BSC advising this area is available to them to proceed on this basis.
	A8 Underpass
	There have been no works carried out by BSC on the A8 Underpass since 01/10/10 due to the contractor's decision to stop work until all outstanding INTC's have been closed out.
	Depot Access Bridge
	North Abutment: Backfilling/Structural fill works
	Central Pier: Prep works carried out levelling areas prior to erecting Scaffold for Deck work
	South Abutment: Formworks and concreting works continued during this period, however adverse weather conditions at the end of the period exacerbated works.

Progress Report Issue 1 Period 10

Section	Commentary
Section 6 Gogar Depot	Depot Building works: Accommodation area: Building 2 <sup>nd</sup> fix M&E works ongoing – internal fit out ongoing. Building envelope completed with external doors, canopies, etc substantially completed. Internal brickwork painting ongoing. Workshop area floor painting ongoing. M&E works and Power Energy Building and Sub-station fit-out progressing – LV power supply now operational with lighting etc now available inside building. Gas connection made resulting in heating being switched on  External works: nominal external works including drainage progressed in period due to contractor's decision re outstanding INTC's  Track Laying: Siemens slow progress in 2B where they are taking forward ballast, sleeper and rail works – works exacerbated at end of the period by adverse weather. On completion they plan to move into part of Area 2C.
Section 7a Gogarburn to Edinburgh Airport	Gogarburn Bridge: Area available for Siemens track laying. No works in period.  IPR to EAL: Drainage is now substantially completed and testing is being carried out. No further ductworks, OLE found, sub-base or track slab works have taken place since
	O1/10/10.  Gogarburn to IPR: Drainage crossing completed at Gogar Farm Road and testing carried out. No further ductworks, OLE found, sub-base or track slab works have taken place since 01/10/10.
	Gogar Landfill: No further surcharge materials have been removed during the period. Monitoring has now concluded and a report is awaited from SDS.

### Other Progress Points to note in Period 10:

- Tower Place bridge re-opened to the public on 19<sup>th</sup> Nov to accommodate Ocean Terminal Christmas Shopping.
- Depot Access Bridge is continuing to programme.
- The Gogar tram depot M&E systems are being tested and commissioned using the utilities connections.
- It is expected that the depot plant and equipment for maintaining the trams will start to be installed in mid-January 2011.
- Good progress continues to be made with fitting out of equipment in the HV substation at the depot.

### Issues in the Period

- BSC have ceased works in all areas with the exception of Lindsay Road RWs, Depot Access Bridge, drainage in Section 7 and some M+E works in Depot due to alleged non payment of items relating to changes. tie disputes this.
- Issue surrounding flood reports and requirements to satisfy 3<sup>rd</sup> Party agreements with BAA are causing problems with the design of the airport retaining walls. An alternative design is being pursued.
- Track laying at the depot is going very slowly, and this is delaying the delivery of the trams to the facility. Several issues have been highlighted that could result in rework being required.

Progress Report Issue 1 Period 10

### **Tram Construction (Tramco)**

The CAF contract programme is incorporated in the Master Tram project Programme. We receive electronic submission of the CAF programme to allow analysis of the programme.

CAF is progressing well to deliver trams to Edinburgh according with its contractual programme but there is currently no access available to the depot to receive the trams. Tram 252 is stored in Broxburn, trams 251 and 253 to 270 are stored at the factory in Irun.

### Period 10 Summary - Tramco

No	Planned	Activities in current Period
1	Fabrication of the trams	Fabrication and primer painting is completed on all the body-shells for all twenty seven trams. Equipment fit-out for the remaining trams 22 to 26 is continuing in the assembly hall. The first 19 trams are completed and tram 21 is about to start factory acceptance testing.
2	Enhanced passenger information upgrade	Plan still to fit final equipment when trams arrive in Edinburgh.
3	Review of Test Protocols and test results	CAF have completed final internal tests to verify and calibrate computer design tools using Tram 251 at Wildenrath on the 12 <sup>th</sup> October 2010, final report awaited.
4	Depot Equipment	CAF are continuing progress, delivery schedule under discussion in conjunction with civil works programme for depot mid-January 2011 is the current start date for this.
5	Finalisation of external branding	Discussions with CAF on application of the final branding have started and any commercial issues will be flagged in due course. We intend to use the fact that they are stored at the factory to undertake this work prior to shipping to Edinburgh.
6	Preliminary Tram O&M Manuals	Revised manuals received and reviewed. ROR sent back and next update due mid 2011 after experience on site with the trams.
7	Key sub-contract placement	Collateral warranties – 3 signed warranties have been received, remaining continue to be progressed.
8	Factory Based Acceptance Testing complete	First 20 trams have successfully completed factory testing to date. 74% of trams now completed and tested.
9	Testing regime	CAF have revised the Delivery & commissioning regime for the trams to reflect the requirement to store Trams pre delivery to Depot. All Trams will be prepared after storage, undertake Dynamic testing and commissioning. 1 <sup>st</sup> tram due for starting commissioning mid-March 11- last tram mid-May 12.
10	Programme progress	86% of scheduled activities completed

### **Preparing for Operations**

The Operational Readiness detailed programme information is also incorporated into the Master Tram Project Programme.

### Edinburgh Tram Project

Delivery Organisation Period Progress Report

Document Type: Issue: Progress Meeting Date: Page: 22 Progress Report Issue 1 Period 10

Regular meetings are held to review the programme and the potential impact of the infrastructure delivery dates to the commissioning process and the associated operational staff recruitment and training programme based on the current **tie** live programme.

The Operational Readiness team are working closely with both **tie** and BSC programme teams to coordinate progress at the Depot.

We have been planning in detail the first three stages of preparation for the Testing & Commissioning. The Benefits Realisation & Operational Readiness Sub-Committee of the TEL Board provides the governance overview and monitors the progress of the tasks and decisions required to deliver the Operational Readiness programme. Good progress is being made in all activities except those that are directly dependent upon progress with the infrastructure works.

Lloyds Register Rail have reviewed and reported on the plans and procedures for managing the safety of the tram system and the documents have been updated and reissued.

The procurement of the ticketing equipment for the tram system, to integrate with the existing Lothian Buses ticketing system has progressed to the stage where the final ITT has been issued and two tenders have been returned on the 16th December which have been evaluated. We expect to select a preferred bidder during January and finalise a contract containing client break option clauses at suitable points in the programme.

The maintenance of completed infrastructure assets continues to be developed with BSC maintenance representatives, notably the tram vehicle O&M and Operator Manuals and the asset management system for the tram vehicles.

Terms and conditions for operations staff have been drafted in partnership with Lothian Buses and the various job descriptions have been graded using the Hay Evaluation process.

Snagging activities have been carried out on the office and control room accommodation at the Gogar tram depot.

Progress Report Issue 1 Period 10

### 3 Edinburgh Gateway

### **Edinburgh Gateway**

Progress on the Edinburgh Gateway Project in Period 10 2010/11 is summarised as follows:

- The revised Prior Approval, due to be submitted to CEC in the Period, was delayed following discussion with NR regarding the final landscaping details. Work on the detailed design to achieve Technical Approval continued with AIP issued to CEC on 10<sup>th</sup> December 2010. Coordination meetings continued with NR to resolve issues associated with EMC, Section 21 agreement and approval of anchor system for retaining wall ahead of IFEA submission to CEC.
- **tie** requested an Estimate from BSC for Edinburgh Gateway construction works as a Change under the Infraco Contract including a number of programme matters that **tie** indicated Infraco should assume when completing their Estimate. These programme issues will require adjustment following resolution of the Prior and Technical Approval issues. Further **tie** letter reference INF CORR 7005 of 17<sup>th</sup> December 2010 requested confirmation from BSC regarding date for receipt of Estimate.
- Legal agreements: tie have requested draft wording from SW regarding Section 21 Agreement for build over of retaining wall. This was requested on 18<sup>th</sup> November 2010. Meeting arranged with SW and NR for 13<sup>th</sup> January 2011 to co-ordinate approach. Progress on other legal agreements will be reviewed in the new year once clarity on wider ETN Project timescales.
- A high level Principals meeting on Edinburgh Gateway between Transport Scotland, Network Rail, City of Edinburgh Council and tie, took place on 22 December 2010. Meeting agreed to focus teams on concluding redesign.

### **Forecast Cost to Complete Design**

Forecast outturn is £1,166k against an original £880k:

### £880k Breakdown

SDS	£400k
JRC	£ 30k
tie	£100k
Siemens	£350k

#### £1,166k Breakdown

SDS	£5	40k
JRC	£	45k
tie	£1	20k
Siemens	£3	327k
Const. Staging	£	30k
ICP	£	20k
Name Change	£	3k
A8 Drainage	£	27k
Legal Costs	£	50k
33kV Enab Wks	£	4k

tie have discussed outstanding milestone applications with BSC in an effort to ensure cash flow is consistent with progress.

Delivery Organisation Period Progress Report

Document Type: Issue: Progress Meeting Date: Page: 24 Progress Report Issue 1 Period 10

### Period 10 Design progress

At the end of Period 10 **tie** assessed the design phase as 90% complete. The work carried out in the Period involved resolution of final Prior Approval issues with NR and did not contribute significantly to progress on the overall design.

Cost of work done to date is £963K versus the £880k originally forecast and the £1166k revised AFC. This is a reduction from the COWD reported reported last period due to a reassessment by tie's project managers of work done.

Prior Approval was granted on 28<sup>th</sup> July 2010. The revised Prior Approval will be submitted to CEC following agreement with NR regarding the final landscaping details. NR confirmed their acceptance of the revised landscape details for north embankment on 23 December 2010. Work on the detailed design to achieve Technical Approval has continued with AIP issued to CEC on 10<sup>th</sup> December 2010. Co-ordination meetings continue with NR to resolve issues associated with EMC, Section 21 agreement and approval of anchor system for retaining wall ahead of IFEA submission to CEC. Other outstanding design issues including resolution of survey grid discrepancy, ICP sign off and drainage approvals continued in the Period.

#### **Tram Design Issues**

BSC previously identified a need to discuss the reduced headroom for the OLE through the tramstop with the Independent Competent Person (ICP). The **tie** engineering team have discussed this further with BSC and have received confirmation that this is still an issue. BSC will supply the justification for the **tie**/ICP to review.

A meeting was held on 2<sup>nd</sup> September 2010 between **tie**, TS and NR with ETN ICP John Dolan. The meeting discussed the design interface issues that require to be addressed to satisfy ETN ICP John Dolan. In the Period the design assumptions register was updated to reflect the current status regarding close out of ICP issues. Further discussions will be required with NR to close out the specific interface issues. These will be addressed through the regular Design Managements meetings between tie, TS and NR and the fortnightly conference calls.

### **Tram Patronage Modelling & Business Case**

**tie** has received some comments from Transport Scotland regarding the JRC Modelling Report in Period 9, and these are under review by tie/JRC and will be responded to during Period 11.

### **Programme Milestones**

Discussions are continuing between **tie** and Transport Scotland to agree Key Milestones. **tie** updated the forecast dates in Period 10 for indicative purposes only as these are subject to clarity on the wider ETN Project timescales.

Progress Report Issue 1 Period 10

# **Master Project Milestone Schedule**

PERIOD Ending 01/01/2011

ALL DATES ARE INDICATIVE ONLY UNTIL BASELINE PROGRAMMES ARE AGREED

Progress against milestones in programme								
		Baselined	Forecast	Status / Completion Date				
	Edinburgh Gateway - Tram Works							
Milestone G1	Submission of Detail Design for Technical Approval	30-Aug-10	04-Feb-11					
Milestone G2	Completion of Cost Estimate (Including Risk & Value)	30-Sep-10	18-Mar-11					
Milestone G3	Completion of Technical Approvals	30-Sep-10	04-Mar-11					
Milestone G4	Completion of Statutory Approval & Consents (Prior Approval)	28-Jul-10	18-Feb-11					
Milestone G5	Completion of Issue for Construction (IFC) Information	18-Oct-10	04-Mar-11					
Milestone G6	Completion of Tram/Business Case Modelling	22-Jun-10	TBC					
Milestone G7	Completion of Construction Staging and Programme	30-Sep-10	18-Mar-11					
Milestone G8	Provision of CEC/tie Proposal to TS (Price & Programme)	08-Oct-10	18-Mar-11					
Milestone G9	Completion of Grant Funding Arrangement	15-Oct-10	15-Apr-10					
Milestone G10	Complete Design & Development Stage 1		TBC					
Milestone G11	Confirmation of Scope of Legal Agreements/Heads of Terms	05-Aug-10	05-Aug-10	Closed				
Milestone G12	Completion of Heads of Terms/Draft Legal Agreement	19-Aug-10	18-Feb-11					
Milestone G13	Completion of Legal Agreements	01-Oct-10	15-Apr-11					
Milestone G14	Commencement of Tram Construction Phase 1	18-Oct-10	15-Apr-11					
Milestone G15	Completion of Tram Construction Phase 1	31-Mar-11	14-Oct-11					
Milestone G16	Access to NR for Tram Area 1 (CIV/6001/001) Main Station Works	01-May-11	01-Nov-11					
Milestone G17	Access to NR for Tram 2 (CIV/6001/002) Sewer Works	01-Jul-11	17-Oct-11

Master Project Milestones

Progress Report Issue 1 Period 10

### Legal Agreements

Following meetings between parties on 25<sup>th</sup> and 29<sup>th</sup> October, it was agreed not to progress the drafting of the legal agreements at the moment. This work will be reviewed in the new year once there is clarity on the wider ETN Project timescales. The current status of these agreements is understood to be as follows:

- Licence to occupy land from CEC to NR, also incorporating transfer of land to NR from CEC.
   This agreement will require to be in place in time for entry to site.
- Construction Interface Agreement. No drafting has progressed on this agreement to date.
- Operational Interface Agreement. No drafting has progressed on this agreement to date.
- Bridge Agreement. No drafting has progressed on this agreement to date.
- Section 21 Agreement: tie have requested draft wording from SW regarding Section 21 Agreement for build over of retaining wall. This was requested on 18<sup>th</sup> November 2010. Meeting arranged with SW and NR for 13<sup>th</sup> January 2011 to co-ordinate approach.

#### Long-lead Items / Abortive Works

tie has written to Transport Scotland confirming arrangements put in place with respect to avoiding re-works to the ETN infrastructure due to EGP. Transport Scotland has confirmed that tie should take steps to minimise the abortive works on the basis that the Edinburgh Gateway Project will go ahead.

Drainage for the earthworks at the Depot is currently being installed to the west of the Depot Access Bridge. There is no option that does not involve some re-works if Edinburgh Gateway Project goes ahead as foul and surface water drainage works need to be installed to allow completion of the Depot and Section 5C test track. BSC are at present only progressing the critical works to allow commissioning of the Depot and Test Track. The full extent of the re-works will not be known until the drainage design for the Edinburgh Gateway Project has been designed and approved. The BSC design is being progressed to maximise reuse of the existing IFC drainage systems.

**tie** letter reference INF CORR 7004 of 17<sup>th</sup> December 2010 issued to BSC confirmed current works are not to cease while the Edinburgh Gateway design and construction Estimate is agreed.

### **Construction Staging**

Construction Staging meetings with **tie**, TS, Network Rail and BSC have concluded for now. NR have agreed to work to a predetermined set of ETN night time possessions to construct the recirculation tower and overbridge. All parties have discussed the preferred construction sequence which can only be verified following receipt of an Estimate and Programme from BSC.

**tie** met with Transport Scotland and BSC on to review the requirements for commissioning of the tram system test track and the impact of Edinburgh Gateway project on 1<sup>st</sup> September 2010. Edinburgh Gateway does not appear to have a significant impact in this respect, however a number of minor issues were identified as requiring consideration. **tie** issued TNC letter to BSC on 10<sup>th</sup> September 2010 to cover this scope of works. No response has been received to date.

### **Enabling Works**

Network Rail commenced on site on 2<sup>nd</sup> November 2010 to divert the Scottish Power 33Kv cable diversion. Cable works completed on site by 26<sup>th</sup> November 2010 ready for jointing. NR have indicated jointing works will be carried out commencing 12<sup>th</sup> January 2011.

### 4 Headline cost report

### 4.1 Current Financial Year

	FY 10/11		FY 10/11		FY 10/11			COWD	Costs	Total		
	C	OWD Perio	d	COWD Year To Date		COWD Full Year Forecast			To Date	To Go	AFC	
	Actual	Budget	Variance	Actual	Budget	Variance	Forecast	Budget	Variance	Actual	Forecast	Forecast
Total Project COWD	3.802	13.246	-9.443	54.586	108.026	-53.441	70.052	142.245	-72.194	402.428	142.572	545.000
Other Funding	0.314	1.094	-0.780	4.507	8.920	-4.413	5.784	11.745	-5.961	33.228	11.772	45.000
Demand on TS	3.488	12.152	-8.664	50.079	99.107	-49.028	64.268	130.500	-66.233	369.200	130.800	500.000

The 'AFC' figure of £545m (table above) does not reflect an approved and reliable Anticipated Final Cost for the Edinburgh Tram Project. Rather, the forecast presented reflects our best view of the spend profile of the funding currently available for the delivery of the entirety of phase 1a.

Given the continuing commercial uncertainties with the Infraco and continuing delays to the project it is considered unlikely that the full scope of Phase 1a will be completed within the available funding envelope of £545m. It is not however possible at the present time to accurately forecast a reliable outturn cost until the key commercial issues are resolved through the contractual and legal process

tie presented an updated forecast for 2010/11 project spend to TS on Tuesday 19<sup>th</sup> October. Forecast spend ranges and sensitivities for 2010/11 & 2011/12 were presented to TS on 4<sup>th</sup> November. A further revision of the current year forecast took place in Period 10, and is within the range presented to TS on 4<sup>th</sup> November.

The review of spend for 2010/11 has resulted in a tuning down of forecast from a Q2 forecast of £86.7m to our latest forecast of £70.1m. Sensitivities to the £70.1m are highlighted in the section below. **tie** are committed to keeping TS and CEC updated as to the progress of our commercial engagement and any material impacts on the Projects spend profile.

COWD to date is £402.4m, with funding to date split to TS (£369.2m) and CEC (£33.2m).

### Actual YTD P10 & forecast P11-P13 FY10/11

£m	2010/11 to P10	Forecast P11- P13,10/11	Forecas t FY10/11
Infrastructure and vehicles	37.9	11.1	48.9
Utilities diversions	4.4	0.0	4.4
Design	1.4	0.5	1.9
Land and compensation	0.3	0.0	0.3
Resources and insurance	10.6	3.9	14.5
Base costs	54.6	15.5	70.1
Risk allowance	0.0	0.0	0.0
Total Phase 1a	54.6	15.5	70.1

YTD 2010/11 COWD is £54.6m in period 10, and the full-year outturn forecast for 2010/11 has been revised downwards to £70.1m, from the previous £86.7m forecast in Q2.

Key Risks and sensitivities to the £70.1m forecast for are:

- Tramco Non Tram vehicle related costs forecast (-£1.3m)
- Infraco related prelims currently under DRP (+£8.6m)
- Infraco Main works progress up to (-£8.9m)
- Commercial engagement structure of outcome will influence spend profile

As previously reported and agreed with CEC and TS, initial milestones under the Infraco and Tramco contracts in the aggregate amount of £14.3m, in respect of advance material purchases, have been classified as prepayments. These will be reclassified as expenditure against funding in the periods when the related materials are delivered to site and incorporated in the works. The release will occur on the achievement of trackwork and structures milestones in 2010/11 and future years.

### **Current Financial Year Profile**

### Profile for FY10/11

£m	<b>Q1</b> (p1-	<b>Q2</b> (p4-	<b>Q3</b> (p7-	<b>Q4</b> (p11-	Total
	(3)	(p4-	10)	13)	FY10/11
Infrastructure and vehicles	16.7	9.6	11.6	11.1	48.9
Utilities diversions	-0.4	0.1	4.7	0.0	4.4
Design	0.5	0.4	0.5	0.5	1.9
Land and compensation	0.2	0.1	0.0	0.0	0.3
Resources and insurance	3.2	3.3	4.2	3.9	14.5
Base costs	20.1	13.5	21.0	15.5	70.1
Risk allowance	0.0	0.0	0.0	0.0	0.0
Total Tram	20.1	13.5	21.0	15.5	70.1

- Costs for 2010/11 are forecast at £70.1m (£86.7m Q2). Note: This forecast is sensitive to the key risks as identified above.
- The latest forecast is based upon tie Project Managers view as at the end of period 10.
- The original TS share of the budget (£130.5m) has been reduced to a forecast of £64.3m.

### **Project Cashflow Forecast**

Re-baselined Phase 1a Cash Profiling

£m	Cum	Act	Act	FY	FY	13-21
	FY07/	ual	ual	10/1	11/1	AF
	08	08/0	09/1	1	2	С
		9	0			
Infrastructure and vehicles					114.	323.
	30.6	45.2	83.5	48.9	8	1
Utilities diversions	18.4	33.4	10.6	4.4	-1.1	65.8
Design	24.4	4.7	2.1	1.9	1.0	34.1
Land and compensation	16.8	1.7	1.6	0.3	0.0	20.5
Resources and insurance	42.9	16.0	15.9	14.5	9.3	98.5
Base costs (inc 1b)		101.	113.		124.	541.
	133.1	0	8	70.1	0	9
Risk Allowance	0.0	0.0	0.0	0.0	3.1	3.1
Total		101.	113.		127.	545.
	133.1	0	8	70.1	1	0

Note: Base costs include £6.2m for ph 1b.

Per the note in 4.1 the 'AFC' figure of £545m does not reflect an approved and reliable Anticipated Final Cost for the Edinburgh Tram Project, but point to 'our best view' of the spend profile of the funding currently made available for the delivery of the entirety of phase 1a.

The TEL board have approved a risk allowance within the current funding arrangements of up to £63.2m, which takes the current agreed budget up to £545.0m.

# 5 Time schedule report

### 5.1 Report against key milestones

The table below reflects the milestones set out against the Rev1 programme.

Milestones	Baseline programme date	Actual / current forecast date tie live prgm
Approval of DFBC by CEC	21 Dec 06A	21 Dec 06A
MUDFA – commencement of utility diversions	02 Apr 07A	02 Apr 07A
TRO process commences	14Dec07A	10-Dec-07A
Approval of FBC by TS – approval and funding for INFRACO / Tramco	09 Jan 08	Dec 07A
Princes Street closed	03-Feb-09	22-Feb-09A
Tramco / INFRACO - award following CEC /	28 Jan 08	14 May 08A
TS approval and cooling off period and SDS novation.		
Construction commences	14-Apr-08	14-May-08A
First track installation commences – on street	03-Nov-08	Jun 2009A
Carrick Knowe Bridge commences	21-Aug-08	19-Aug-08A
A8 underpass commences	08-Aug-08	28-Aug-08A
Haymarket viaduct commences	08-May-08	01-Sep-08A
Edinburgh Park viaduct commences	06-Aug-08	01-Sep-08A
Tram mock-up delivered	Oct 2008	Nov 2008A
Demolition of Wanderers clubhouse	25-Aug-08	05-Jan-10A
Edinburgh Park viaduct complete	24-May-09	Feb-11
Princes Street re-opened	01-Aug-09	29-Nov-09A
NR immunisation complete	Nov 2009	Sep-10A
Utilities works complete (including telecoms)	Nov 2008	Mar-11

<sup>\*</sup> CAF revised programme to reflect availability of Depot for Tram delivery

**Guidance for Completion:** 

Legend for colouring of Actual / forecast date text Green:

Green: Actual / forecast date is ahead or in line with baseline

Yellow: Slight slippage – readily recoverable with action.

Pink Significant slippage but expect recovery can be achieved

Red: Notable / significant slippage – difficult to recover, even with action.

### **Key Issues Affecting Schedule**

- BSC have ceased works in all areas with the exception of Lindsay Road RWs, Depot Access bridge and the Depot area due to alleged non payment of items relating to changes. BSC has formally advised tie of 99no. individual Infraco Notice of tie Change (INTC) items and the validity and content of these are under review. tie has responded to the majority of these items under the existing contractual mechanisms available.
- Lack of agreement with BSC regarding on-street construction programme;
- Completion of a fully integrated and assured design.

### 12-Week Look-Ahead

Until the revised programme is in place the forecast for the next 12 weeks continues to be generated from the **tie** Live programme including latest updated information from both BSC and **tie** Project Managers.

Note that due to the uncertainty surrounding the On-street section of the Infraco works, that these works have been removed from the 12 week forecast other than for areas that are currently underway. Similarly, as BSC have now advised that they are demobilising worksite where there is an outstanding disagreement regarding an estimate, these works have also been removed from the table.
